

# Milton Success Stories

## Serving Milton is a family run affair

passed on to their daughter Colette. Colette began working as a technician for her parents and then later attended Georgian College, Barrie to become a certified Optician. She has now been licensed for eight years.

Vic Robitaille says "I find the field fascinating and I always want to learn more." The result of the Robitaille's quest to gain

more knowledge is not only personally rewarding, it is extremely beneficial to the public.

Milton Optical is located in the heart of Downtown Milton in the Carriage Square Plaza where it has been serving the local community for three years. However, the Robitaille's have been in the optical business for 17 years. The family first opened their doors to Mississauga residents from their V&P Optical shop, located in Central Parkway Mall. After achieving success in a large city, the Robitaille's decided to try their luck opening a second shop. Having grown up in a small town they were eager to return to their roots. The Robitaille's decided Milton was a perfect fit.

The business's focus is to make it's customers visits both pleasant and rewarding. There is nothing more frustrating than having to wait for glasses. By having a lab on premises, Milton Optical can offer quicker service than many of its competitors. Same day service applies to some of their products.

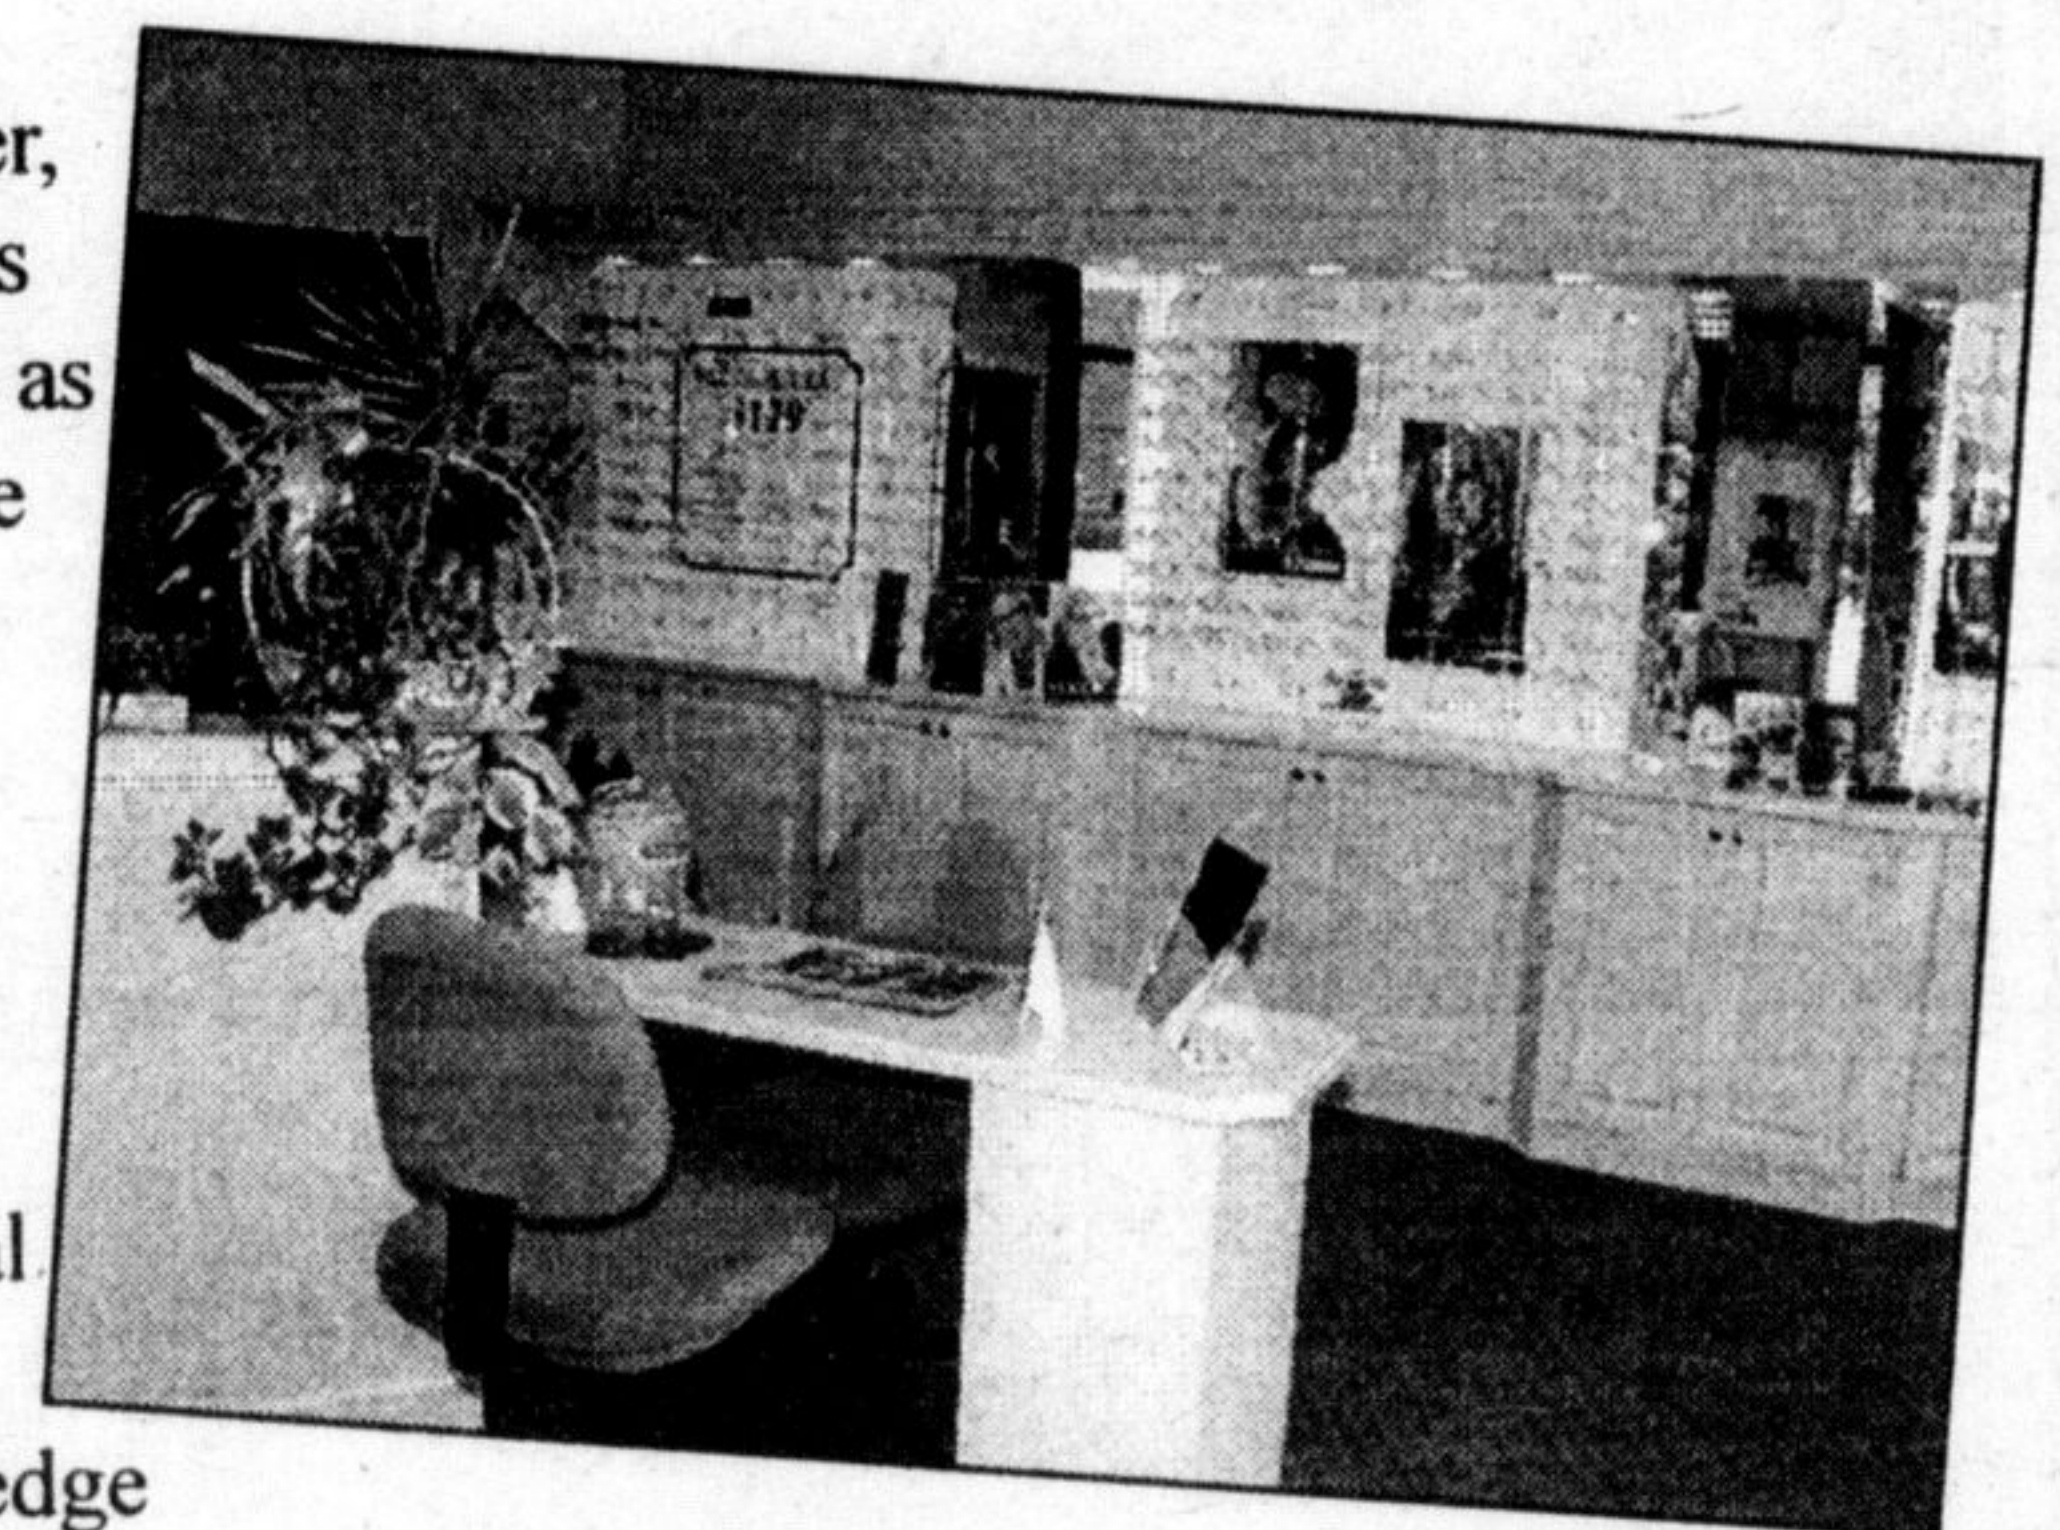

In some cases having such wonderful service means that product selection is limited. At Milton Optical, the service is superb and the selection is tremendous. The shop carries various sized frames ranging from children through adult. The Robitaille's know that wearing glasses shouldn't be unstylish. Milton Optical offers a wide array of designer frames such as Liz Claiborne, Eddie Bauer, Nikon, Roots and Alfred Sung. Sunglasses are also available in designer brands such as Serengeti and Rayban. Gift certificates are also available.

Those who are better suited for contact lenses will also be impressed. Milton Optical offers lens fitting, soft contacts, disposable contacts, and bifocal contacts. Patrons will not only leave Milton Optical with the perfect lens for their individual needs, they will leave with all the knowledge

they need to know about contact lenses. The staff of Milton Optical are always there to offer their expertise and ensure that their clients receive the personal attention they deserve.

Milton Optical is always ready to serve the community's needs which includes offering a wide variety of hours. The shop is open from Monday-Thursday 10 am - 6 pm, Friday 10 am - 7 pm and Saturday 9 am - 3 pm.

Milton Optical is currently hosting an anniversary sale, so stop by and take advantage of the savings. Your eyes will thank you.

Clear eyesight is something that most people take for granted. That is until eyesight begins to fail. In such an unfortunate situation, Milton residents should consider themselves fortunate to be in proximity of the friendly and helping hands of the Milton Optical staff. Milton Optical is a family business, owned and operated by Vic & Peggy Robitaille. Vic Robitaille has been in the optician industry for over 30 years. He became a licensed optician in 1973 and furthered his expertise in 1981 when he became a certified contact lens fitter. Peggy has been a licensed optician since 1981. Their interest in the optic field and their desire to work with people was
