Through the Operation Clean Water Program, the Province of Ontario implements and enforces Drinking Water Standards to protect public health. Halton proudly presents to its residents the first Water Quality Quarterly Report aimed at improving public awareness regarding their drinking water.

The report details information about where your water comes from, what it contains and how it compares to the Provincial Standards. If your drinking water comes from a private well, you are responsible for your water's safety. Halton Region's Internet web site provides links to the Regional Health Department and Ministry of the Environment regarding the maintenance and safety of your well supply.

Halton's first quarterly report, covering the period (July 1 - September 30, 2000) is available free of charge to the public. The Water Quality Quarterly Report can be obtained by:
