

Put a plan together
for your future,
So you can
relax and enjoy
your today

With all of the different investment vehicles and strategies available these days, it's difficult to know which ones are best suited to your needs. Everyone is different. Investments made here and there may make investing seem simple, but it doesn't tie it all together into one plan for the future, a plan ready for the expected and the unexpected. I'm talking about a comprehensive plan including mutual funds to get you where you want to go. Mutual Funds provide diversification and the potential for superior growth over the long term to meet the needs of your long-term goals.

My name is Melissa DeBrouwer, and I'm a Certified Financial Planner. It is my job, year round, to create & implement these plans for my clients so that they can get on with the other things in life that matter to them. If you have GICs coming due and would like to look at alternatives or you already have a mutual fund portfolio but want to have them worked into the bigger picture of your life, give Alison or Jackie a call to book your appointment. I look forward to meeting with you.
