

Subway creates a sandwich the way it should be

For a franchise that signs on 70 new stores worldwide over the course of a week, it's obvious the secret of sandwich making has been discovered.

Subway was brought to Milton 12 years ago by James and Lianne Krane. The couple sold their first store to Shahid and Huma Ahmed about a year and a half ago, after undergoing renovations to seat 30 people. The couple then opened another store seating 24 people, closer to the highway.

Both stores are ranked among the top 20 in sales for Southern Ontario by offering a quality sandwich with great service.

"We try to go the extra mile," Mr. Krane said. "People come to expect top-notch service and good service won't do."

Mr. Krane said through selective hiring and extensive training the staff are able to offer a fast, great tasting product.

Subway is also selective about its produce suppliers. Subway has a purchasing co-op at the corporate level to buy entire fields. That means every tomato used can be traced back to the field it was grown in.

Subway's big claim to fame was fresh made bread, baked on-site. Recently Subway introduced new variations of bread including asiago cheese and country wheat.

With over 2 million different combinations of sandwiches, there's something for everybody. Subway also carries seven sandwiches with six grams of fat or less and under 350 calories.

Subway also offers salads, soups and baked gourmet cookies. The 24 hour location is home to the popular all day breakfast sandwich.

Subway is located at
389 Main St. E. and 50 Market Drive.
905-875-3212 (Main St.),
905-876-4142 (Market Drive)

Bill's Auto Body Shop restores all types of vehicles

A collision may damage a car, but in the hands of Bill's Auto Body Shop a vehicle can be brought back to life.

Dubbed Milton's Business of the Year in 1995, the body shop under the care of owner Ries Boers, has strived toward maintaining their status of being number one.

"I try to provide service beyond what is expected," Mr. Boers said. "We'll go out of our way to satisfy a customer."

The shop, complete with state of the art equipment, offers auto body and collision repairs and refinishing for all vehicles. Technicians have serviced not only cars and trucks but snowmobiles and motorcycles too.

Restoration times vary from two days to two weeks or longer. With experienced technicians and the assistance of a frame straightener and computer paint matching system, cars can be restored to pre-accident condition. Using Dupont

paint, accuracy in paint matching is 99 per cent.

The shop also provides a free computerized estimate prior to starting any work.

"Anything is repairable, but not everything is economically repairable," Mr. Boers said.

Mr. Boers said everyone who walks through the door is treated equally. Contrary to stereotypes, men and women feel comfortable at Bill's Auto Body Shop.

During its 52 year existence, previously under ownership of Bill Phillips, the most important aspect has always been the people.

"I feel very much a part of the community," Mr. Boers said. "I am very grateful for what they've provided. Without the customers there would be no business."

Bill's Auto Body is located at
155 Nipissing Rd.
905-878-2721
