Why the Change?

The current waste collection schedule has evolved over the past three decades, with new routes being added as Halton grew. In order to provide the most efficient service, Halton Region has taken a fresh look at the waste collection routes, and streamlined them to concentrate more resources in each area on collection day. This will help us improve service by allowing for increased supervision, providing better support for waste collection operators, and ensuring faster action when unforeseen circumstances arise.

Getting Used to the Change

The new routes mean a change not only for residents, but for the waste collection operators as well. There may be some wrinkles to work out in the first week or two, but we are working to minimize any service disruptions by ensuring that we have extra resources available during the initial weeks of the new schedule. To further minimize disruptions, we are asking all residents to have material at the curbside **by 7:00 a.m.** on your scheduled collection day.

Commercial Waste Collection

Current collection days for commercial properties are **not changing**.
