Dairy Queen

p.s. I Love You

Let your first Valentines — your parents — know how much they are loved and appreciated. This year be creative and pamper your parents with gifts inspired by love. Craft a card by hand with construction paper like you did as a child ... but this time it will be much improved! Adhere memorabilia that conjure up memories of the past — an old button from your favorite coat, fabric from the costume your mom made for you for the second grade school play ... even a photo of your newborn child. Or try your skill at a photo montage that includes photos of your first tooth, the day you learned to ride a bike and of course, your first Valentine's Day.

Muddy Duck
