

I remember when I first moved to Milton 21 years ago, I was eager to find a home. When The Canadian Champion arrived at my door the "Best Homes" section was the first place I looked for real estate information. I relied on it weekly.

Things haven't changed!

So many of my clients turn to The Canadian Champion to keep in tune with the local real estate market.

I know that consistent advertising in the "Best Homes" gives me the ultimate exposure.

Whether you are a buyer or a seller, the "Best Homes" is readily available, with distribution boxes at local, easy to access locations, as well as through the paper.

If you are looking for a rural property, country estate, or in-town home, The Canadian Champion's "Best Homes" section is a must!

Choose the paper that knows the area.

Choose a Realtor that knows the market!

It's All About You!

"Signs of Success"

Education programs for adults and young moms have openings

Self-Reliant Learning Program as well as Teen Education and Motherhood program are helping hundreds

By **FANNIE SUNSHINE**
The Champion

No matter what age you are, education matters.

The Adult and Continuing Education program, under the umbrella of the Halton Board of Education, still has room in its Self-Reliant Learning Program (SRLP) and Teen Education And Motherhood (TEAM) program.

SRLP, held at E.C. Drury High School, offers north Halton adults the chance to complete high school credits and upgrade academic and job skills.

The site is open days and evenings, allowing students with busy lifestyles to complete courses on their own weekly timetables.

The courses are done independently, but students are assigned qualified high school teachers who are available for one-on-one assistance.

The SRLP program offers credits in math, science, English, computers, accounting, chemistry, biology, physics

and law.

The TEAM program, also held at E.C. Drury High School, is a specially-designed program for pregnant teens and young mothers aged 16 to 21 years.

Courses are available in accounting, computer applications, English, math, merchandising, personal life management and science.

Career, education and personal counselling is also available.

While mom is busy learning in the classroom, her child spends time socializing with other children and staff in the day care room.

Child care is available for infants and pre-schoolers.

"Students must be in class six-and-a-half hours per week per course," said Marg Campos, site supervisor for the TEAM and SRLP programs.

"We recommend students take three courses at a time. If you take more, it may be too difficult to keep on top of all the work."

TEAM and SRLP courses are free.

If you're on social assistance, the child care costs will be covered.

Limited subsidies are available for students not on social assistance.
