

HOME & GARDEN

Did You Know?

Even if your community has drought watering restrictions, you can ensure that your garden won't be ravaged by the lack of water. First, contact your public works department to see if it's legal to water flower beds with watering cans or hoses. In many instances, it's only illegal to use sprinklers for lawns. Next, consider the water wasted in the household that could be used in the landscape. Before your bath or shower (yours and others in your household) collect the water that otherwise would go down the drain using a bucket or a large watering can. Use this tip year-round to save water.

Dig up the Differences...

retention, robust aeration, and exact pH and nutrient levels. Miracle-Gro's vast line of potting mixes, like the Enriched Miracle-Gro® Potting Mix and the Miracle-Gro® Moisture Control Potting Mix, offer the necessary ingredients to help plants grow and thrive in their contained home. Boasting a wide spectrum of potting mixes, Miracle-Gro ensures that whatever is in the

pot will receive the specialized individualized care it needs, indoors or outdoors.

"Our potting soils are specifically designed to enhance, strengthen, and beautify all container plants," Baeder says. "They are ideal for potting new plants or for repotting old ones. This custom blend of sphagnum peat moss, perlite and organic materials ensure results to amaze any gardener."
