HOSPITAL

We Care What You Think

Halton Healthcare Services would like to know what you liked and didn't like about your stay at one of our hospitals – Milton District Hospital (MDH) or Oakville Trafalgar Memorial Hospital (OTMH).

If you were a patient or visited the Emergency Department at MDH or OTMH in January, February or March of 2002, there's a good chance you'll soon be asked for your opinion about your visit. The questionnaire asks people to evaluate the courtesy and skill of healthcare professionals, including nurses, physicians and other healthcare workers. Other topics include the admission process, communication, hospital care, preparation for returning home, and cleanliness of the facility. The survey also allows for personal comments and views.

"Knowing our patients' perceptions of the quality of service and care they received can really help us," says John Oliver, HHS President and CEO. "The results will provide us with a better understanding of what we are doing well and where we are not meeting patient expectations. This information will guide our future directions and improvements."

Inquiries regarding the survey or any other aspect of hospital services may be directed to Madonna Benoit, Halton Healthcare Services' Ombud at 905-338-4433.

Special Deliveries Coming Soon...
