Britannia

## Milton's Concept Cabinets offers beautiful, hand-crafted cabinets

In most homes the living room is a misnomer. In fact, families spent most of their time in the kitchen. That's why many homeowners are updating kitchens to make them more attractive, functional, and an expression of their personalities. Improvements to the kitchen can be as minimal or extensive as your budget allows, and the simplest of changes can often greatly enhance your home's enjoyment and value.

People who want beautiful hand-crafted

cabinets just have to call Concept Cabinets.

Owned by Glenn Proctor and Jason Breau, the partners have been building beautiful cabinetry for Milton residents for the past six years.

While the company's speciality is kitchen cabinets, they also do vanities, countertops, showcases and architecture cabinets. Architecture cabinets are those that come in different shapes including rounds and ovals.

Concept Cabinets only uses high-quality

wood and handles to create their cabinets.

Concept Cabinets will go out to your home, measure and then help you choose the best place to put the cabinets.

"Most of the work is done in the shop, then we just have to screw in the cabinets. Once we are started we are usually (finished) in a day and a half."

Remember to consider colours, countertops, cabinets & flooring as well as the fundamental law of kitchen design: the work triangle.

Concept Cabinets is located at 785 Main St. E. Unit 3. For details call 878-9177.

## Fire-smart families do the drill

"Are you a fire-smart family?" You are if you can answer 'yes' to the following:

- Every level of our home is equipped with a working smoke alarm.
- We test our smoke alarm once a month.
- We replace the batteries in our smoke alarm every year.
- Our family has developed and is familiar with our escape plan.
- Everyone in our family, no matter what the age, knows how to dial 911 in an emergency.
- We have at least one fire extinguisher in our home (kitchen, garage, bedroom, etc.) and everyone knows how to use it.

These issues and many others are important to deal with before an incident occurs. October is Fire Safety Month so if you'd like more information on optimum protection for your home and family, call toll-free, 1-800-565-1976, ext. 224, or [www.kiddesafety.com](http://www.kiddesafety.com).

### HELP MAKE YOUR MEMORIES LAST A LIFETIME

We know the importance of making sure your home is safe from fire or theft.

Keep your precious memories and home safe.

In the kitchen install a fire extinguisher and turn skillet or hot handles toward center of stove. Keep towels/napkins away from the stove.

Keep track of your household contents. Inventory your home's contents.

Include serial number and photographs.

Place list in a secured place.

For more tips, see us, your State Farm Agents.
