What sets us Apart brings us Together

SENIOR VEHICLE TECHNICIAN – MISSISSAUGA

There's something about you that sets you apart. Perhaps it's your strong knowledge of the use and operation of all automotive and testing equipment, gauges and tools normally associated with the troubleshooting and repair of gasoline, diesel and propane automotive equipment. Or maybe it's your seven or more years of fleet, automotive or truck vehicle maintenance experience and applicable licences/vocational training. Whatever it is, you've got an edge. And that's why we want you to provide timely, quality maintenance for the FedEx vehicle fleet and ground support equipment, including preventative maintenance, troubleshooting, repairs, modifications and documentation. In addition to the above qualifications, you have a complete set of hand tools, including metric sizes, can lift and manoeuvre heavy vehicle components up to 70 lbs. with the help of appropriate lifting mechanical assistance and possess a Class DZ licence.

Please forward your résumé, quoting file #SV-03, by August 25, 2003, to:
