

Company awarded for innovations at plant

Got a hot scoop? Call us at (905) 878-2341, ext. 234.

A Burlington-based company has won a prestigious industry award for its innovations in Milton.

The Canadian Manufacturers and Exporters (CME) presented its fourth annual Canadian Innovation Award in Process Excellence to the Eaton's Cutler-Hammer business unit.

The company was recognized for its implementation of LEAN manufacturing at its Low Voltage Distribution Assemblies (LVDA) facility in Milton.

LEAN has created a 33 per cent reduction in the cycle time for the facility's main products, panelboards and switchboards, reduced inventory by \$200,000 a year, freed up 18,000 square feet of floor space, and realized annual cost savings of more than \$500,000.

General manager Clayton Tychkowsky accepted the award from Perrin Beatty, president of CME, on behalf of the management and staff of the Milton facility.

"What began as a journey driven by the Eaton Business System quickly turned into a culture and way of life for everyone in Milton.

"Dedicated teams turned some ideas that were initially considered unworkable, and some even crazy, into great accomplishments," Mr. Tychkowsky said.

Cutler-Hammer's Milton LVDA facility fabricates and engineers panelboards, switchboards, custom panels and transfer switches.

Eaton Corporation is a global \$8 billion diversified industrial manufacturer that's a leader in fluid power systems; electrical power quality, distribution and control;

automotive engine air management and fuel economy; and intelligent truck systems for fuel economy and safety. Eaton's 55,000 employees work in 29 countries on

six continents. Its Canadian operations are headquartered in Burlington with offices and manufacturing facilities across Canada.

War Amps Programs

*From us
To you*

Time counts. The War Amps CHAMP Program gives child amputees a strong, early, start in life. In time, CHAMP graduates will continue the legacy of "amputees helping amputees."
