

# Ward 3 Councillor

(2 to be elected)

## Ken Keates, incumbent

Ken Keates, 62, who has served a term on town council, is a woodworker/chairmaker with a background in computer software development.

Mr. Keates and his wife, Vee, have been married for 19 years. They have three children and three grandchildren. They live in S.S. #4 — a 140-year-old schoolhouse on Second Line in Nassagaweya.

Mr. Keates earned a professional accounting degree in 1972. In 1981 he founded Ag-Data & Associates — a company that developed software for the agricultural community.

He has served on numerous Town committees including the Administration and Planning Standing Committee and the Community Services Advisory Committee. He's also a member of the Nasagaweya Historical Society and the Ontario Electric Railway Association.

### Why are you running?

To keep Nassagaweya the best place in which to work, live and play. To be mindful of the unique blend of urban and rural, old and new of Milton, protecting our future in the best of town and country.

To protect, promote and recognize the many heritage properties, both built and natural, in our community — preserving our past.

### What are the local issues?

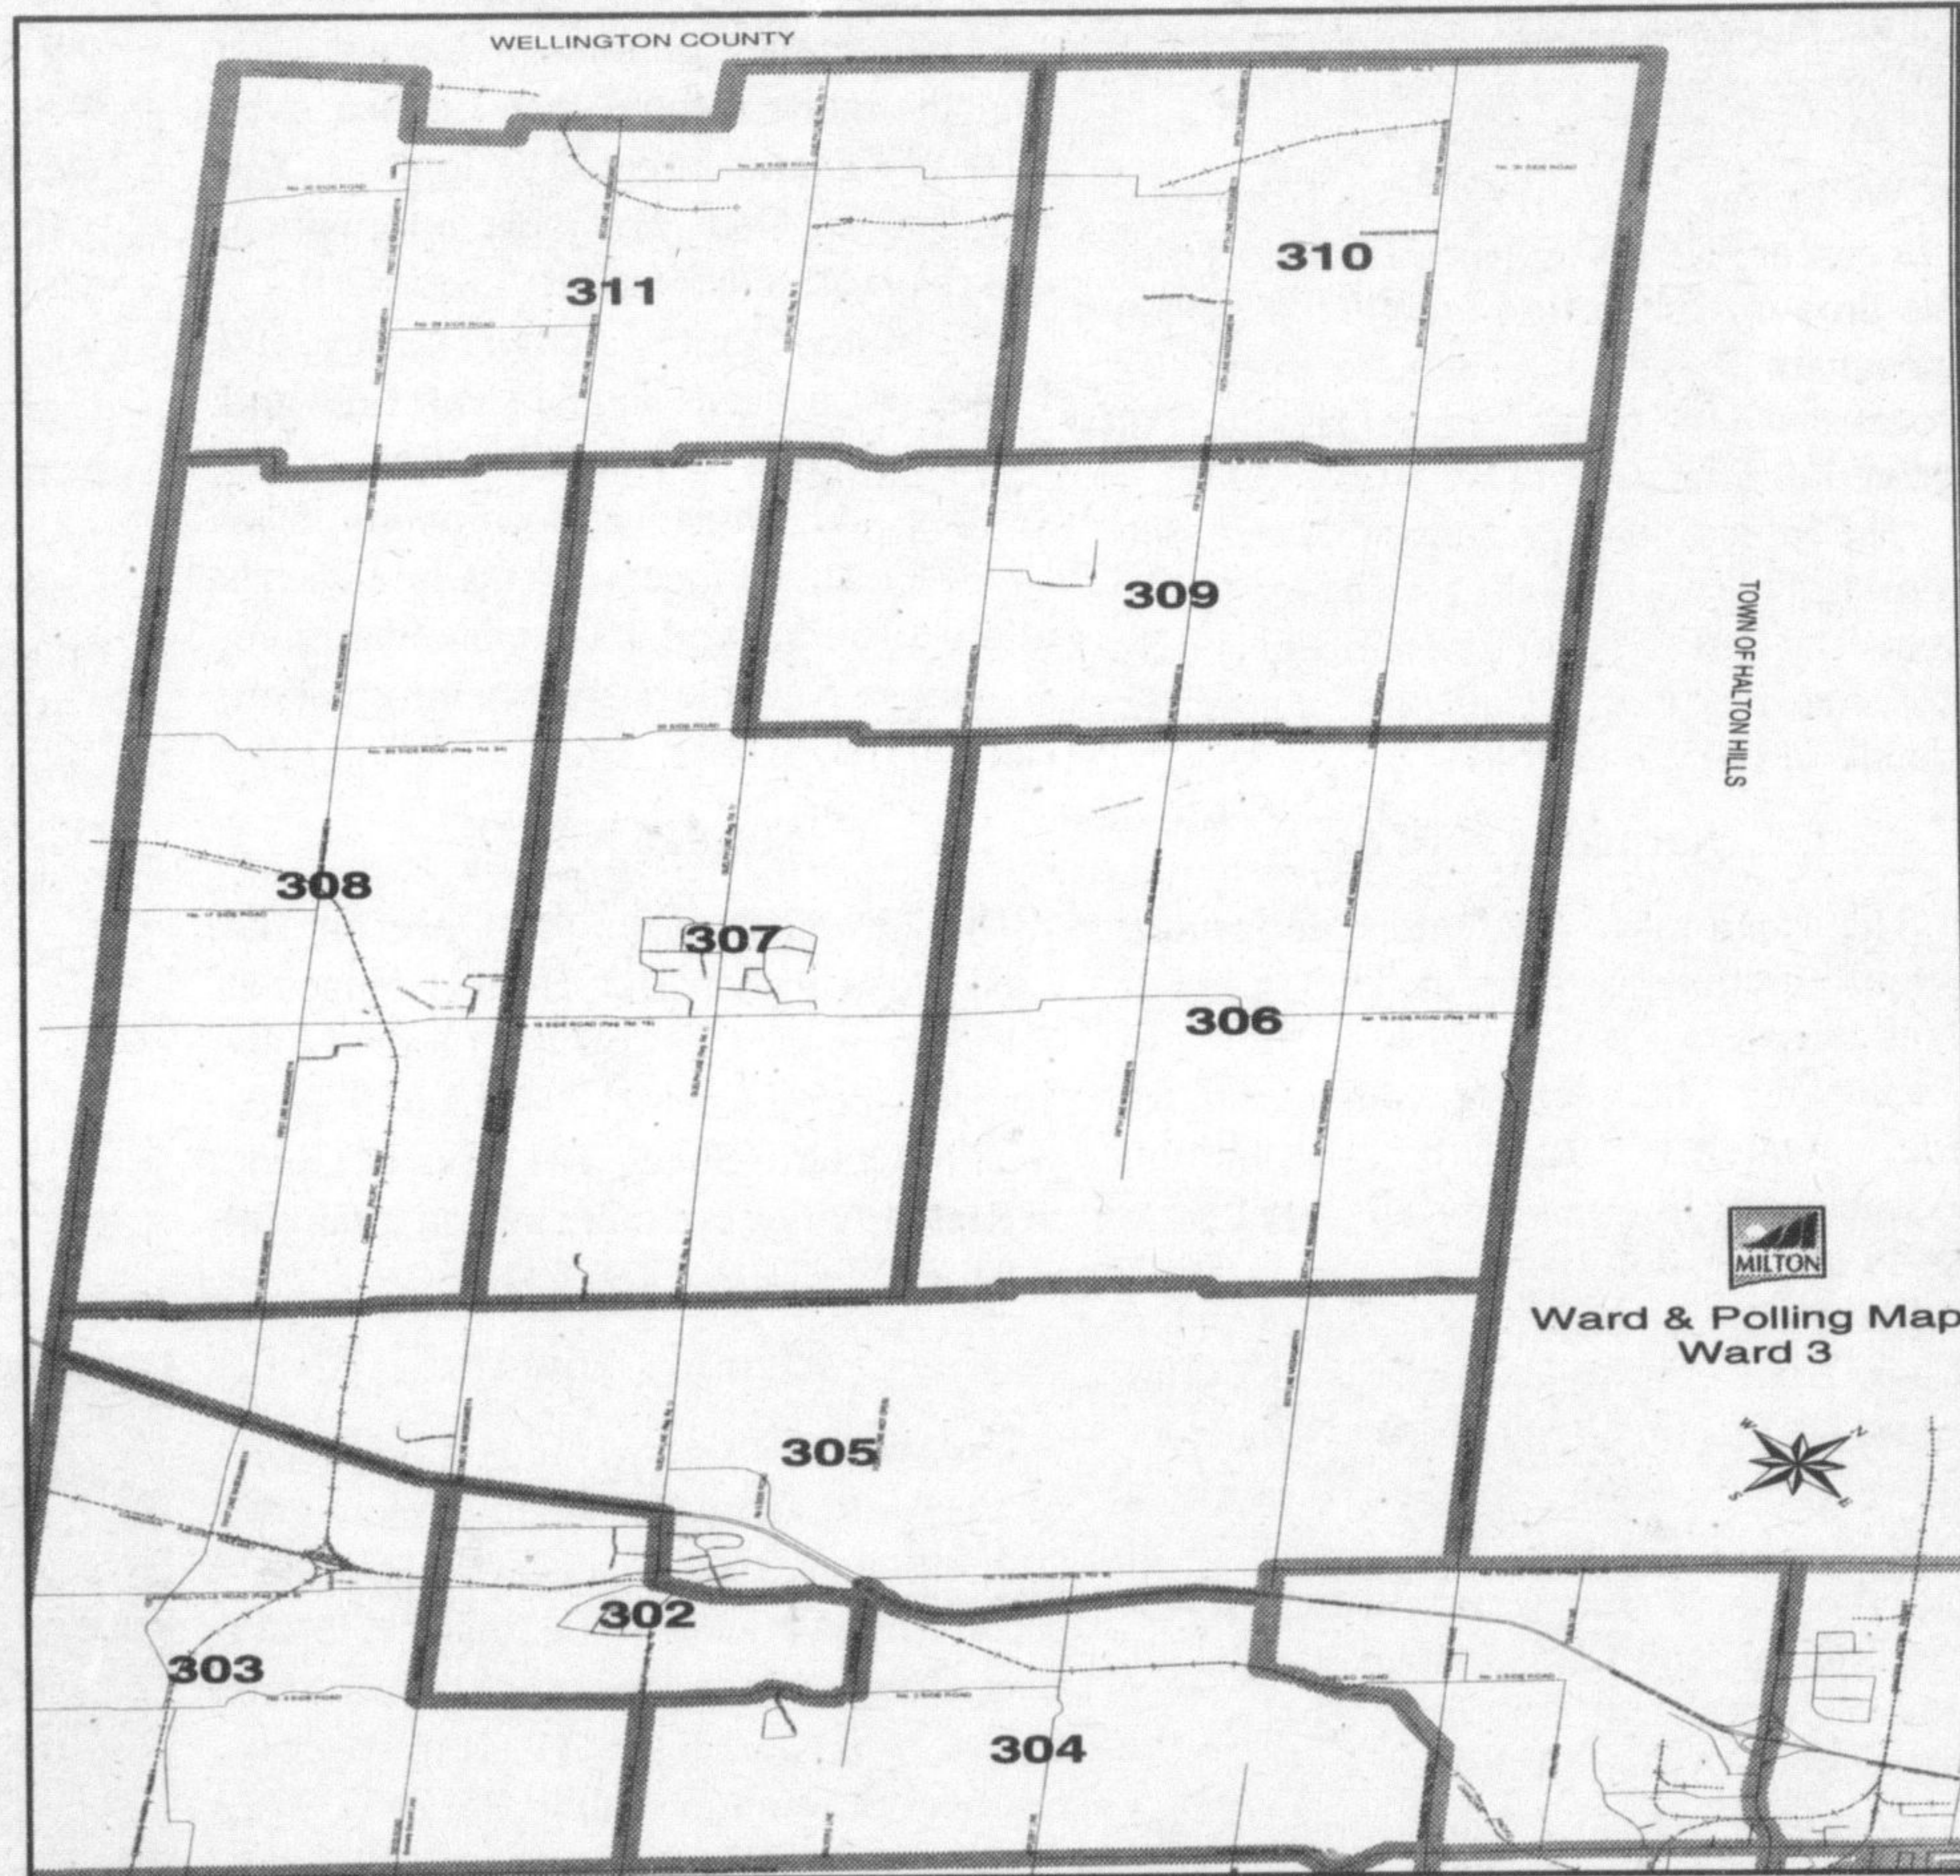

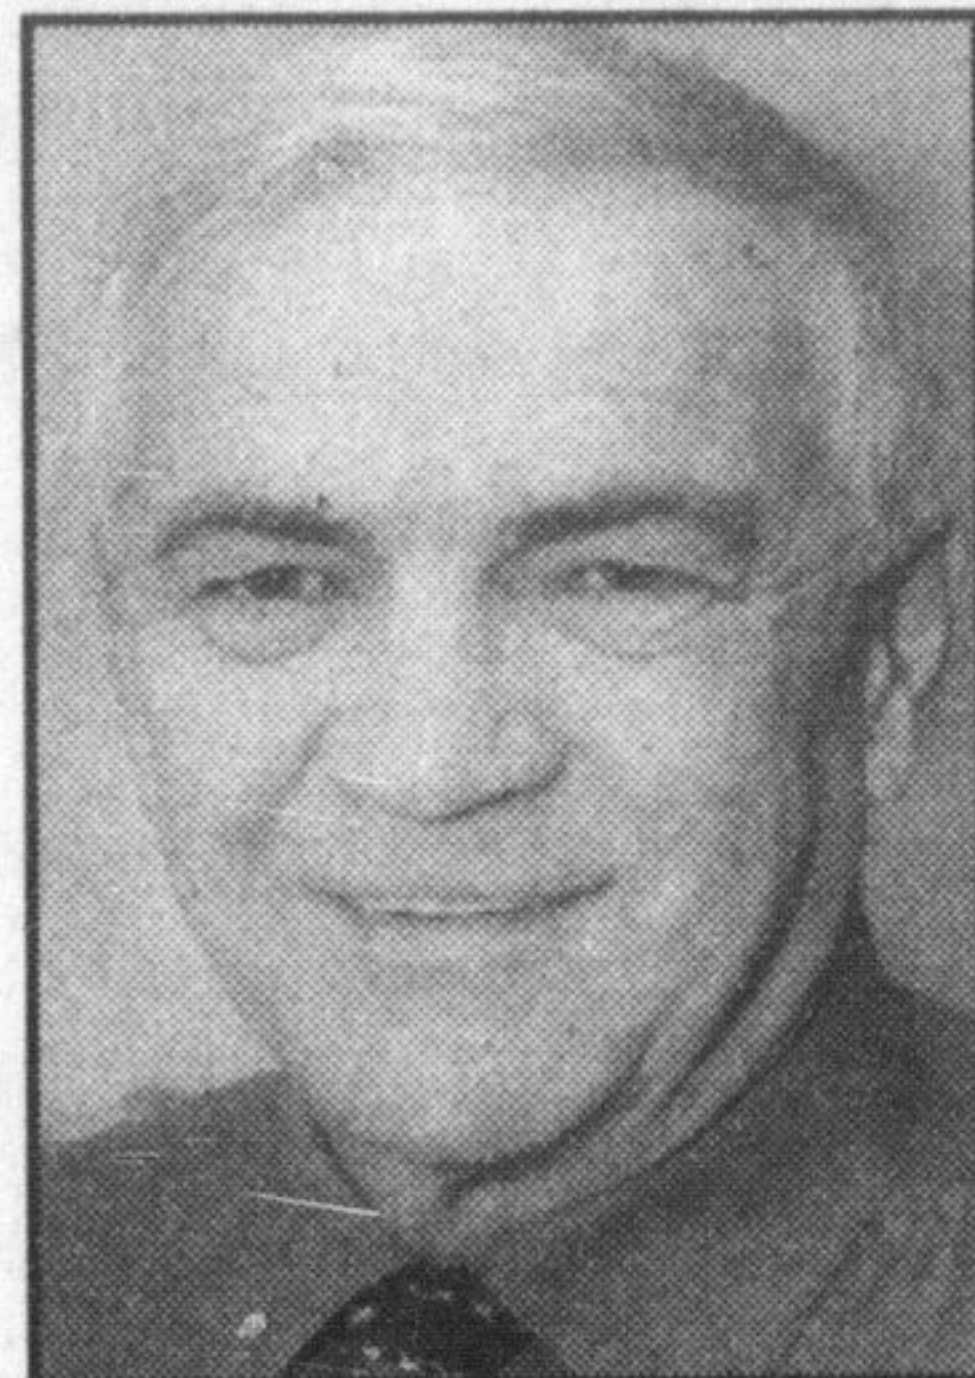

- Safe water
- Rural development
- Safe and clean roadways

### How will you address them?

I will support, promote and work toward the implementation of the Watershed Based Source Protection Plan through Conservation Halton and Milton council.

I will review development applications closely to ensure they are not endangering the rural environment.

I will promote, support and work toward an anticipated Milton anti-littering campaign. To support a parallel program to reduce speed levels on our rural roads with the goal being slower speeds and less litter — a clean and safe solution to protecting our future.

## Cindy Lunau, incumbent

For the past six years, Cindy Lunau, 58, has served as a Ward 3 councillor. She's also the small business owner of Loon-Woods, a furniture restoration and custom finishing shop. As a councillor as well as community volunteer, she serves on many committees and boards. Her formal education includes a Bachelor of Arts with majors in Economics and Political Science and a minor in English. A Nassagaweya resident for 21 years, Ms Lunau has three daughters.

### Why are you running?

I thoroughly enjoy being involved in my community. I see my role in four parts. 1.) Using my knowledge and experience to facilitate solutions to residents' concerns — small concerns and large issues. 2.) Co-operating with volunteers who are willing to share their knowledge and energy to improve our community. 3.) Working for the larger communities of Milton and Halton, especially in economic development, hospital services, recreation and leisure opportunities for youth and adults. 4.) Planning for change while keeping the best of what we have.

### What are the local issues?

Water is a key issue since rural property values and good health are sensitive to good wells. Potential development and commercial water-taking within and near our borders must be closely monitored and subject to independent studies prior to any approvals. The Town, through council,

must actively support watershed planning and aquifer management with the Region and the Province.

Another issue is land use — protecting our rural base with a balance of farming, horse industry and residential. Taxes and quality of life are

other key concerns.

### How will you address them?

We are blessed to live in largely benevolent circumstances. However, a vigilant community is essential and our greatest resource. Residents must recognize their responsibilities and opportunities to shape our community. Traditionally, we have been involved both as volunteers and political activists. All proposals (including the City of Guelph) must have public hearings to protect our interests. Residents have shown great interest in these issues and together we can have an impact. Taxes are necessary, but every expenditure must be justified and have good value. Decisions should be open to scrutiny: Our 'good life' comes with a price, but it must be reasonable.

## Rick Matchett

Rick Matchett, 52, is self-employed in tax recovery, personnel and corporate tax returns.

He and his wife, Cherie, have three children and are long-time residents of Nassagaweya. Mr. Matchett has been involved in the community on various committees for the last 16 years, some of which include the Brookville Minor Baseball, Nassagaweya Men's Slo Pitch League and Halton Sportsman Association.

He's currently involved in the Milton and District Kinsmen Club, Milton Community Services Advisory Committee and Nassagaweya Community Consultation Committee.

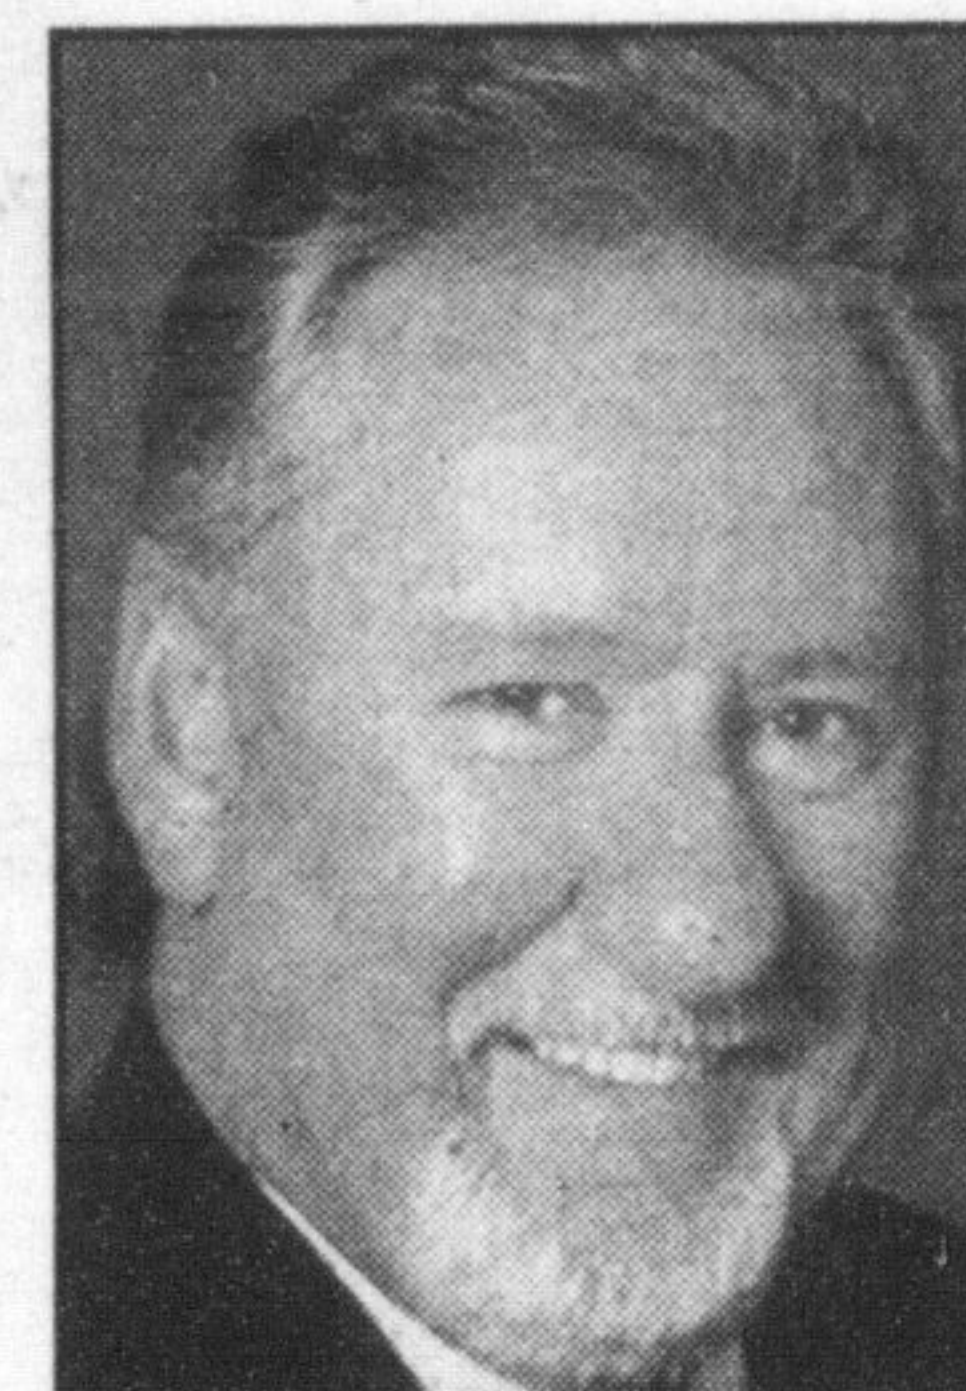

### Why are you running?

I feel that the Nassagaweya/Campbellville areas need a strong voice on council. Campbellville and Nassagaweya are great places to live and raise a family. I want to keep it that way. As urban Milton grows we in the rural area are concerned about the effect of the population explosion on our area. Ward 3 needs a strong voice on council. If council representation grows in the urban area we in Ward 3 need to have strong leadership so our voice will be heard. I want to be that strong voice.

### What are the local issues?

Rural garbage is a key issue — what is the cost, do we have a choice, is roadside pickup the best way?

The Woodbine Entertainment Group's proposal for a new hotel/golf facility and its effect on

the local watersheds, traffic control, and disposal of sewage waste.

Increase in local traffic from outlying communities that use our roads as expressways to the 401. We have to control the safety of our roads and protect our families

from the aggressive driving on our roads.

Recreational and park facilities for our children — what do our children do for entertainment, how can we provide for their activity requirements? We need to provide the opportunity for growth for our youth.

### How will you address them?

I will get involved.

I will be accessible.

I will be a strong voice.

I will meet with the local residents to hear what they want and what they have to say about their community.

I will be active on council and the sub-committees that I join.

I will listen to the concerns of the residents and actively work on their behalf to make this the best place to live and raise a family.
