## OXFORD LEARNING

...a safety rope for better grades

Report Cards will be coming home soon, leaving you looking for a quick fix to get your child's grades up for the last term. But few quick fixes last. At Oxford Learning, students are offered individual programs that address their needs in academics, learning styles and self-esteem. It is a system that offers them the tools to succeed for now and for the future.

Using in-depth assessments that identify how your child absorbs information and then gets it back out on paper, Oxford Learning is the leader in helping children get better grades for this report card, and all report cards to come. Oxford Learning's curriculum has been developed over 20 years. It has stayed current

with changes in the educational systems across Canada. Our programs include:

### Little Readers Academy (3 - 5 yrs.)

A terrific program for youngsters eager to learn. Statistics show children who read earlier do better in school and in life. This fun filled program gets your pre-schooler ready for the challenges of Grade 1. Small classes, individualized programs and an enriched curriculum in reading, writing, math and more! It is the only program of its kind in North America. It's fun. It's creative. It works!

### Beyond Tutoring (Grades 1 - 8)

Oxford Learning has individualized learning programs to meet the specific needs of each student. An initial assessment identifies the key areas that may be affecting a student's ability to learn, as well as the level at which the student is performing. A customized program is then created to help your child develop more effective ways of learning, and in the process you see great changes! Better grades, higher self-esteem and improved confidence. Regular parent reports keep you in touch every step of the way.

### High School Advantage

The challenges of doing well in high school continue to mount, with average marks no longer being enough to get into post-secondary education. Advantage students learn how to study and work smarter, write brilliant essays, and prepare for tests and exams. Each program is tailored to the needs of the student to bring improved grades, confidence and success.

### The Key to Success - Just a Few Hours a Week!

As you are scheduling your child into all of his/her extra curricular activities (swimming, soccer, music lessons, dance lessons, camps) this spring and summer, make sure you leave just 2 hours a week for the most important activity of all: learning how to learn.

Just think with only 1 hour twice a week, your child can develop a love of learning and begin to experience success in school.

Confidence! Better Grades! Success! It is never too late to start...put this on your child's activity list this Spring.

*(For more information on any of our Oxford programs (pre-school to Gr. 12) or our summer programs, please contact Angela Macedo or Kelly Myrston at the Oxford Learning Centre in Milton.*
