## Mosquitoes beware!

(NC)—Ever wonder how to keep those mosquitoes out of your backyard while entertaining outdoors? The following tips will help keep mosquitoes from ruining your outdoor fun so you can enjoy your patio and deck this summer:

- Wear light colours when outside – mosquitoes prefer darker shades that radiate heat

- Don't use strong fragrances – heavily scented toiletries like soap and perfume may attract mosquitoes

- Clean up the yard – mosquitoes will lay their eggs in virtually anything that will accumulate water

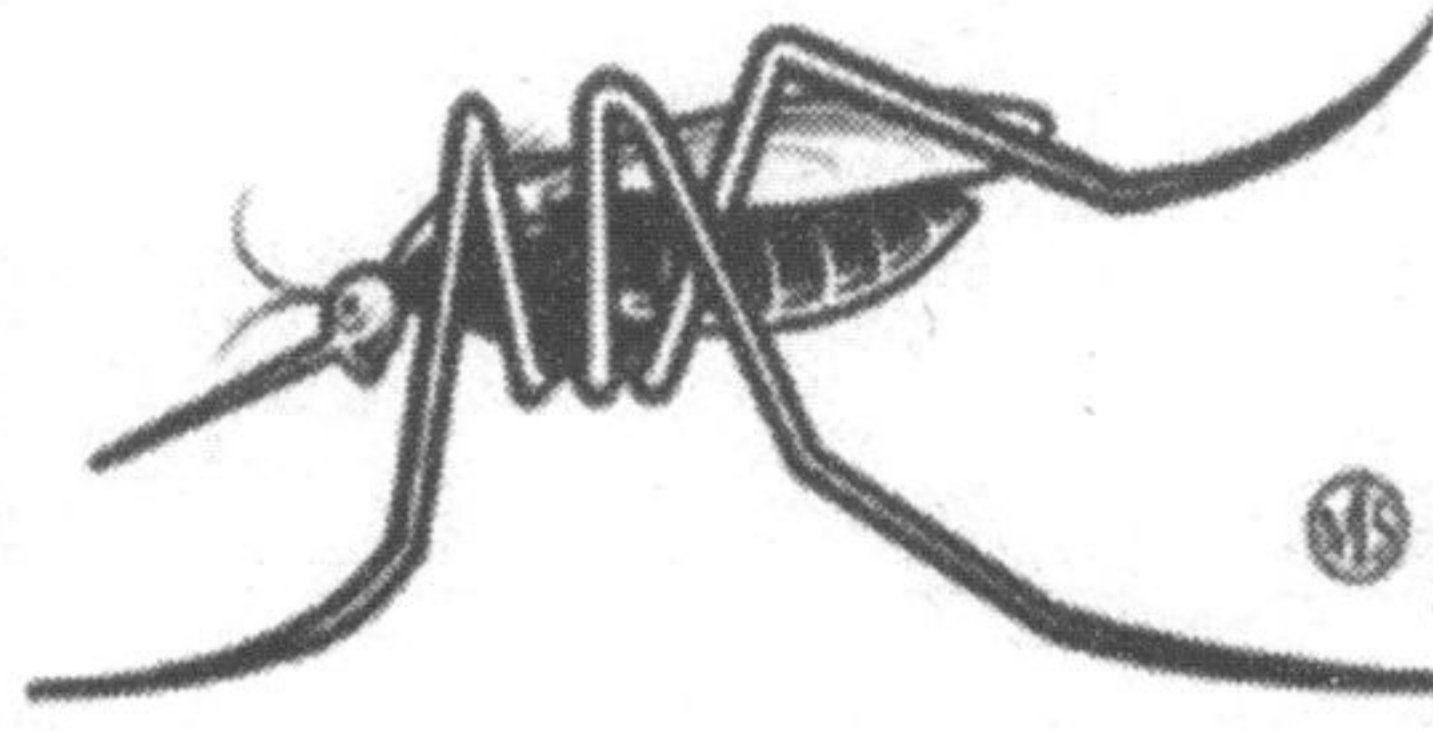

- If out during the day, stay in the sun – mosquitoes prefer shady, windless areas

- If out entertaining on your patio in the evening, and would like effective protection against mosquitoes while providing ambiance, use S. C. Johnson's OFF!® Mosquito Lamp, a reusable portable lamp that protects an average size patio (4.5m) from mosquitoes.

- If you prefer applying repellent directly to your skin, personal insect repellents are available in sprays, lotions, and foam consistencies. Look for federally registered insect repellents that are effective, none greasy and won't stain.

For more information about the

choosing the right repellent and protecting yourself from mosquitoes visit S. C. Johnson's [www.bugfree.living.ca](http://www.bugfree.living.ca).
