The Regional Municipality of Halton

A Partnership That Works!

Notice to Citizens

Get Involved, Share your Ideas

Halton Regional Council invites you to help make decisions and provide input as part of Citizen Committees. Appointed for a term to end November 2006 or until successors are appointed, these groups tackle important issues.

These appointments give Halton residents from a variety of backgrounds the opportunity to contribute their skills and perspective to enhance the quality of life in our community.

Halton Regional Council wishes to ensure that its Committees reflect the diverse nature of its community, and invites all residents of Halton to consider these opportunities.

Halton Region Accessibility Advisory Committee

Purpose: This Committee advises Regional Council on accessibility related issues. Pursuant to the *Ontarians with Disabilities Act*, this Committee also advises Council on the preparation, implementation and effectiveness of an annual accessibility plan that addresses the identification, removal and prevention of barriers to people with disabilities.

Members Needed: 1 citizen at large

People with disabilities and family members of people with disabilities are especially encouraged to apply.

Meetings: Held on the third Monday of every second month from 3:00pm - 5:00pm, or as required. Meetings are held at the Halton Regional Centre, 1151 Bronte Road, Oakville.

Contact: Gabrielle Baldazzi, Senior Policy Advisor, Halton Region 905-825-6000, ext 7485, toll free 1-866-442-5866 ext. 7485, or TTY 905-827-9833.

Halton Biosolids Management Advisory Committee

Purpose: The goal of the Biosolids Management Advisory Committee is to advise and assist the Regional Municipality of Halton with respect to the management of the biosolids program on a Region-wide basis and to provide advice and recommendations on the implementation of Halton's biosolids goals, strategies, objectives and policies. It will also serve as a liaison committee between the Biosolids Management Centre and neighbouring residents.

Members Needed: 1 Halton citizen living within close proximity of the W.A. (Bill) Johnson Biosolids Management Centre, 4 citizens at large, of which one will represent each of the four Local Municipalities.

Meetings: Shall be scheduled as required and at the call of the Chair

Contact: Doug Inouye, Acting Director, Environmental Services, 905-825-6000 or toll free 1-866-442-5866 ext. 7608 or TTY 905-827-9833.

Application forms are available on our website at www.region.halton.on.ca or from the Office of the Regional Clerk, Monday to Friday between the hours of 8:30 a.m. to 4:30 p.m.

A separate application form must be submitted for each committee for which you wish to apply.

Completed application forms must be received at the Office of the Regional Clerk, Halton Region, 1151 Bronte Road, Oakville L6M 3L1 no later than June 4, 2004 at 4:30 p.m.

You will be contacted for an interview.

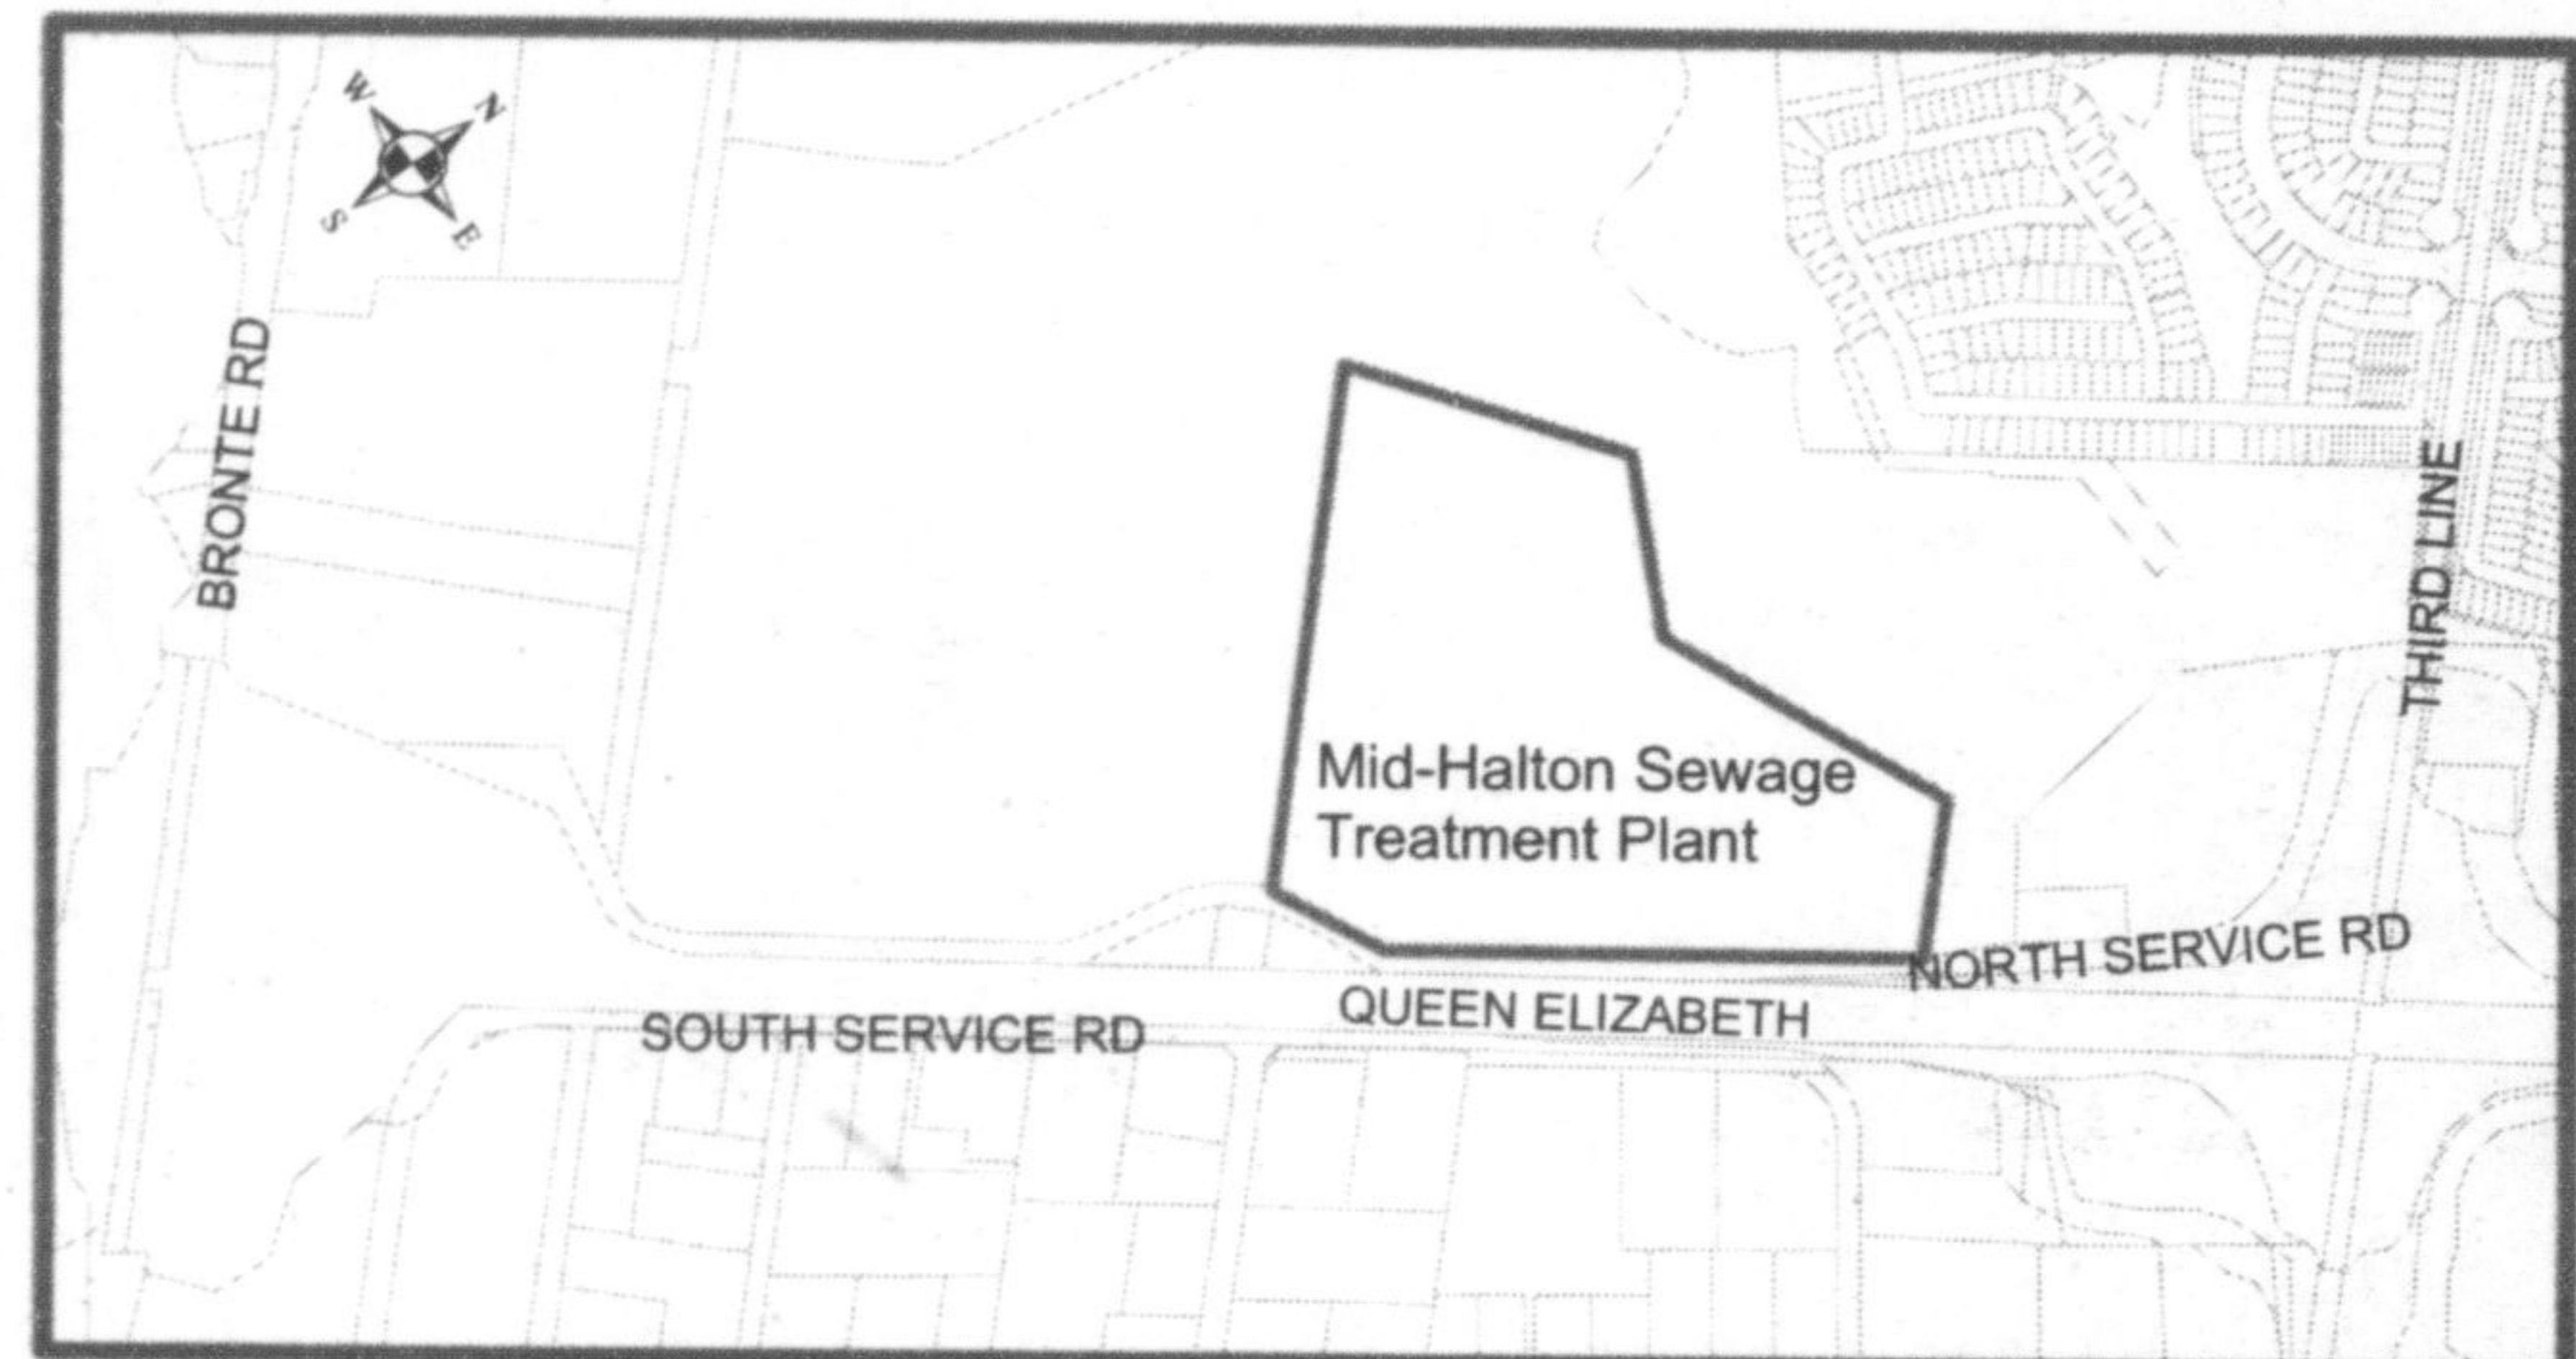

Note: meeting times are subject to change

Tina Agnello, Regional Clerk

NOTICE OF PUBLIC MEETING No. 2

Mid-Halton Sewage Treatment Plant Expansion Phases 3 and 4 Class Environmental Assessment Study

In March 2003, the Regional Municipality of Halton completed a Water and Wastewater Master Plan review that identified the required water and sewer infrastructure projects to service future growth in Halton region. One of the major projects identified in the Master Plan review was the expansion of the Mid-Halton Sewage Treatment Plant (STP), located on the North Service Road between Bronte Road and Third Line in Oakville, and servicing residents and businesses located in the northern portion of Oakville and Milton. The Mid-Halton Plant exceeds sewage treatment standards set by the Ministry of the Environment before the treated effluent enters Lake Ontario.

The Region is following the required Class Environmental Assessment (EA) process to plan for the Mid-Halton STP expansion from its existing capacity of 50,000 cubic meters per day to a capacity of 75,000 cubic meters per day. This process involves a thorough review of alternative ways to expand the plant, to establish a preferred design concept that will meet all treatment goals and achieve the desired balance between community, environmental, and operational objectives.

An important component of this study involves consultation with interested stakeholders (public and regulatory agencies). Two public meetings were held as part of the Master Plan, and two additional meetings are included in the Class EA process. The first of these meetings was held on January 29th, 2004, and the second is scheduled for:

Thursday, June 3rd, 2004

Open House: 6:30 p.m. to 8:30 p.m.

Presentation: 7:00 p.m.

**Council Chambers at Halton Regional Administration Centre
1151 Bronte Road, Oakville**

At the June 3rd meeting, attendees will be able to meet the Project Team and members of the Citizen's Advisory Committee, learn about the current operations at the plant, review the decision-making process used to develop the preferred design, and examine the recommended design approach and implementation plan for the expansion. The Project Team will also provide information on how issues of particular importance to the community, such as the potential for odour and protection of water quality, will be addressed in the expansion.

For more information, please visit the Region's website at www.region.halton.on.ca or contact:
