Catch The Wave

If you are looking for something easy to grow that will explode with colour throughout the season and complete your look - catch the wave! This week's TERRA trend - the ever popular wave petunias are hotter than ever and being used in many different garden settings. You can use them in a container on your patio or deck, in your favourite hanging basket or plant them directly in your garden. Wave petunias are easier to maintain than traditional petunias, and continuously covered in blooms. There are many different colours to choose from in shades of pink, purple and lilac. If you are looking for a wave petunia that will get a little taller try the 'Tidal Wave' series in cherry, hot pink and silver. Plant them close and watch them reach for the sky. Beautiful blooms cover the plant as they flower from top to bottom. Wave petunias provide a fabulous show of colour that no gardener can resist so catch the wave at one of our garden centres now.
