Let Beachcomber Milton heat you up with their sizzling summer hot tub sale

By: Anita Gatto

You know the feeling, the steam hits your feet, your toes are first to go in and as you step in with both legs, your upper body just can't wait to participate. Then you slowly sit, take a deep breath, and finally after a long day you are relaxing in a hot tub. Wouldn't you love

to have that feeling everyday? Beachcomber Milton can make that possible. The store specializes in hot tubs and has many other joys for your home, like barbecues, patio furniture, and more.

The focus of this store is to provide you with enjoyment items for you and your friends.

Peter Draper, owner for a little over a year now, knows the importance of family and being able to spend time with them. He made the decision to leave his high-paced career as an Investment banker in Montreal, Quebec to move to Milton in hopes that his new venture with Beachcomber would be able to give him more time with his family and help him to help others find fun ways to spend with their families.

Hot tubs are always a lot of fun for the whole family, but it's important to find one that suits your needs, price expectations, and is high-quality to ensure a lasting product. Each Beachcomber Hot Tub is built with the same exacting standards. The only degrees of differences are in size, design, available options, and price. They have dedicated almost 25 years to designing and building the perfect hot tub for your home.

Beachcomber Hot Tubs are famous for their engineering, performance, style, and durability. After a long day at work, while hosting a get together with friends, or spending a romantic night with your spouse, a hot tub can be exactly what you need. The store also has the accessories you need to compliment your hot tub, like drink trays, spa pillows, bromine dispensers, a variety of aroma therapy products and a host of other accessories.

There are many different options to choose from:

*Beachcomber's 300 Series establishes the benchmark of quality that has made Beachcomber Hot Tubs famous for their engineering, performance, style, and durability.

*Beachcomber's 500 Series elevates the Beachcomber experience in ways both subtle and profound. These innovative models give you more control in customizing your hot tub to deliver exactly the pleasure you deserve with the elegance you demand.

*Beachcomber's 700 Series brings the essence of Beachcomber to its highest, most luxurious expression.

Each model makes it possible to achieve the elusive sense of total

satisfaction that is as rare as it is rewarding.

The 700 Series lets you immerse yourself in inspiration for body, mind, and soul.

Some of the elements that have enabled Beachcomber Milton to make so many people happy with their hot tubs are:

*Protec (TM) option design moves the power source out from the hot tub cavity and under a safety step that makes it easy for everyone to get in and out of the tub. This allows all four walls of your hot tub to be insulated, which means better energy efficiency and lower operating costs.

*Beachcomber Hush pump (TM) Unsurpassed 24/7 circulation, quiet operation and improved energy efficiency.

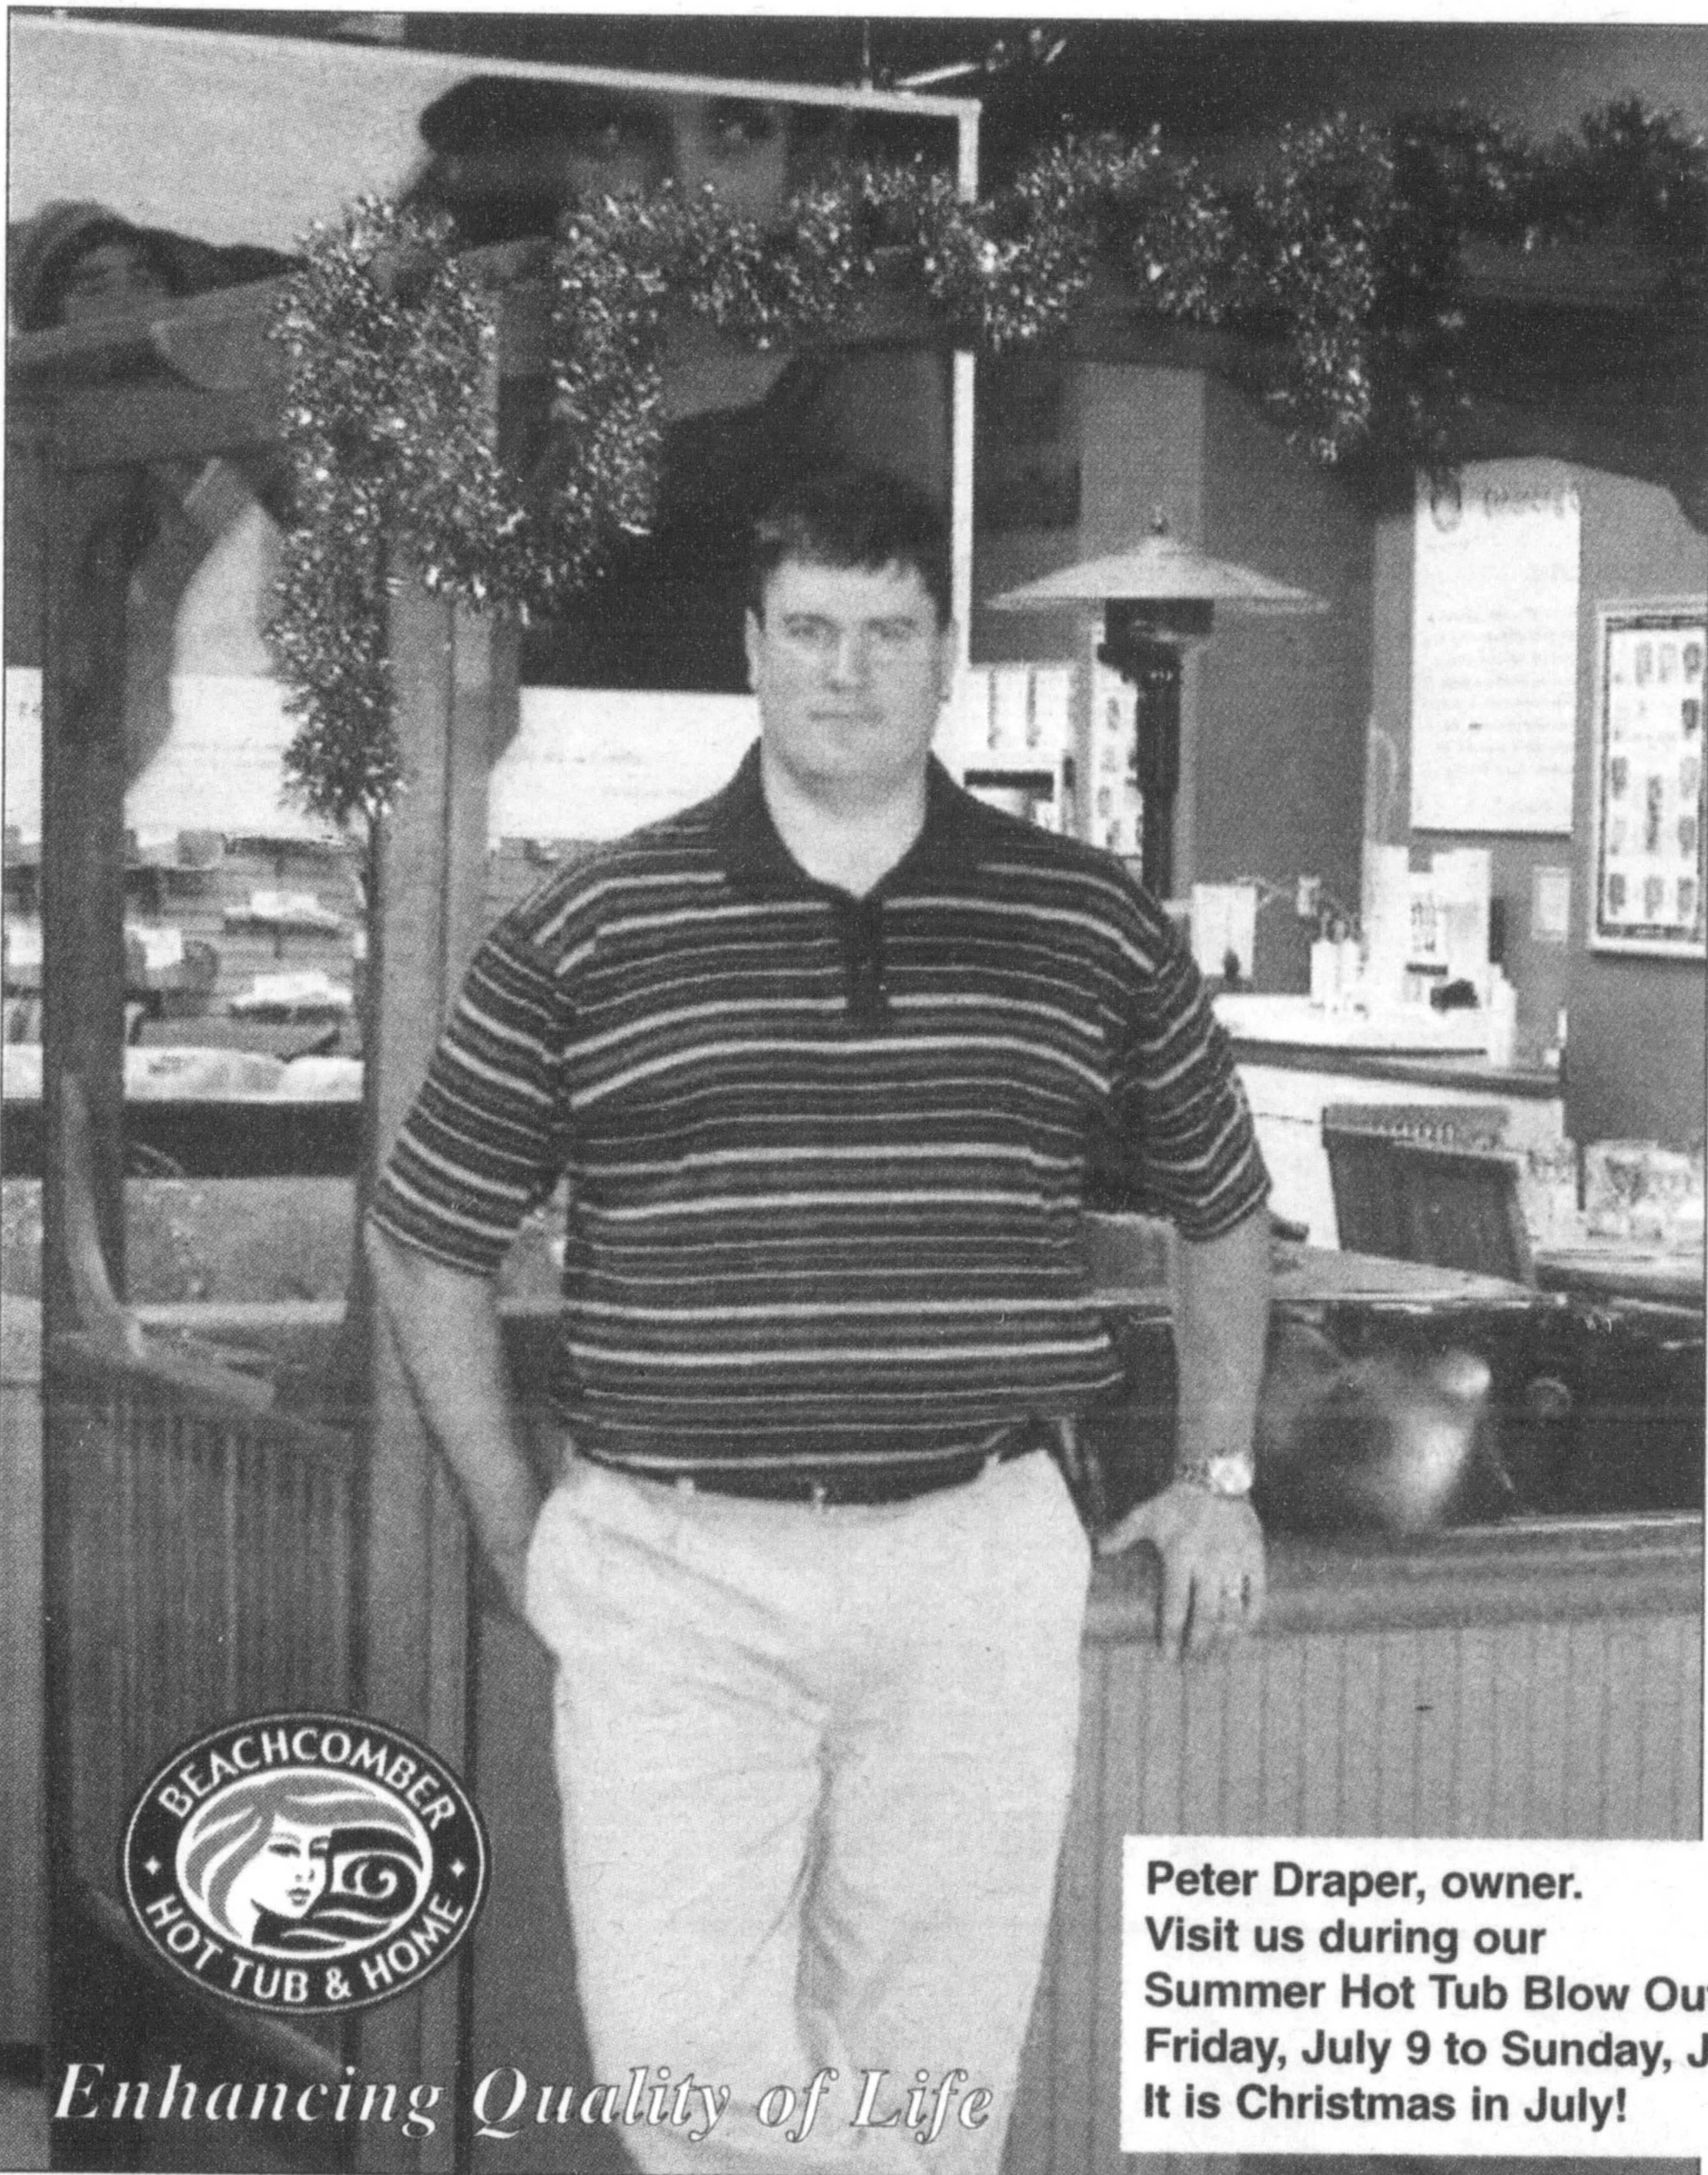

*Reflexology Foot Massage (TM) will pamper your feet after a long day of work.

*Everlight (TM) hot tub illumination with new microstar technology means you'll never have to change a light bulb in your Beachcomber Hot Tub. These are just a few of the special elements that can be added to your choice of a hot tub.

The company believes that their hot tubs will provide you with happiness and comfort in knowing you are investing in a great product. There are other companies that are selling hot tubs in the area, but Beachcomber Milton is proud to be a company that specializes in them. After being in Milton for a little over a year, Draper says he has been very busy ensuring his business remains a success. "It's been great in Milton, my whole family loves it here," says Draper of his new home town. His only complaint, he works too much! However it is at a job he loves and products he believes in, which makes it all worth it. Beachcomber Milton is the type of business that provides quality and ensures family-oriented people like Draper a great hot tub for everyone to enjoy no matter what your price budget.
