Municipality of Halton
A Partnership That Works!

Notice of Completion

Mid-Halton Sewage Treatment Plant Expansion Phases 3 and 4 - Class Environmental Assessment Study

In March 2003, the Regional Municipality of Halton completed a Water and Wastewater Master Plan Review, which identified the required water and sewer infrastructure projects to service future growth. One of the major projects identified in the Master Plan Review was the expansion of the Mid-Halton Sewage Treatment Plant (STP). Located on the North Service Road, between Bronte Road and Third Line in Oakville, and servicing urban development located in the northern portion of Oakville, Milton, and the Halton Hills 401 Corridor, the Mid-Halton STP exceeds treatment standards set by the Ministry of the Environment before the treated effluent enters Lake Ontario.

Prior to proceeding with the design and construction of the Mid-Halton STP expansion, completion of Phases 1 through 4 of the Municipal Class Environmental Assessment (EA) planning process is required by the Ontario Environmental Assessment Act. The Master Plan Review satisfied Phases 1 and 2 of the Class EA process. In December 2003, the Region initiated a study to complete Phases 3 and 4. These phases included an evaluation of design concepts and technologies for achieving the plant expansion, a full evaluation of environmental impacts and mitigation measures, and preparation of an Environmental Study Report.

The preferred design approach includes expansion of the raw sewage pumping capacity, and the capacity of the following sewage treatment processes: screening, grit removal and secondary biological treatment. A new building will be constructed to house equipment that will reduce the volume of sewage treatment residuals (biosolids) that must be hauled off-site. New facilities will be constructed to collect and remove odours from those treatment areas with the potential for odour generation. All new works will be completed within the boundaries of the existing site.

An Environmental Study Report (ESR) documenting the planning process undertaken and conclusions reached is available for viewing for forty-five (45) calendar days from September 30, 2004 to November 15, 2004 at the following locations:

The Regional Municipality of Halton Citizen's Reference Library
1151 Bronte Road
Oakville, Ontario

43 Brown Street
Milton, Ontario
Tel: 905-878-7211

During this 45 day review period, anyone who has any outstanding concerns with the project, which cannot be resolved in a discussion with the Regional Municipality of Halton, may request that the Minister of the Environment make an order for the project to comply with the Part II of the Environmental Assessment Act, which addresses the individual environment assessment by submitting a written request to the Ministry of Environment at the following address:

Hon. Leona Dombrowsky
Minister of the Environment
135 St. Clair Avenue West
15th Floor, Toronto, Ontario
M4V 1P5

Copies of the Part II Order requests should also be sent to:

Mr. David Ohashi, P.Eng.
Manager Special Projects
Regional Municipality of Halton
1151 Bronte Road
Oakville, Ontario L6M 3L1
Phone: 905-825-6000 ext. 7354
Email: midhalton@region.halton.on.ca

Ms. Deborah Ross, M.A.Sc. P.Eng.
Projects Manager
KMK Consultants Limited
220 Advance Boulevard
