

# IceHawks set to host exhibition showdown

The IceHawks don't have any league games scheduled for the Halloween weekend.

But have no fear, the local juniors will still see some action, in the form of an exhibition tilt with the Southern Conference-leading St. Michael's Buzzers October 30.

The 7:30 p.m. start — against former Milton netminder Kain Tisi and a potent offense that includes three players in the Provincial Jr. A League's top-10 — will cap an evening double-header at Memorial Arena. Up first are the affiliate Toronto Marlie minor midgets, who're one of the province's top teams. They'll do battle with the Wexford Raiders, beginning at 5:30 p.m.

The pre-Halloween bash will feature loot bags and balloons for the kids, plus prizes for the best costume. There'll also be a \$2 discount on admission for anyone dressing up.

Currently sitting at 13-2-0-1 and holding down a spot among Canada's top-15 ranked clubs, the Buzzers will provide a huge test for the IceHawks — who're hoping to use that game as a strong springboard to their big trip to Hamilton November 1.

Milton had booked the Halloween weekend off back in the summer, hoping to schedule a mini fall tournament that didn't come together.

## W.I. Dick junior boys win Haltons

W.I. Dick's junior boys clawed their way to top honours at the All-Halton Cross Country Meet at Burlington's Sherwood Park October 13.

Trumping their North Halton pennant win from a week earlier, the Wildcats clinched the regional title in decisive fashion — with Bryden Curren leading the way with third-place honours.

Matthew Dupont and Oran Ferguson also cracked the top-10, finishing seventh and eighth respectively, while rounding out the junior boys' triumph were Alex Searle and Tyler Smith.

Their victory highlighted an all-around successful showing for the boys.

On the strength of a sixth-place effort from David Dimitrov, W.I. Dick's intermediates finished second, while the seniors took third and were just a point shy of tying for second — thanks to Todd Campbell's eighth-place performance.

All six Wildcat teams cracked the top-four at the North Halton meet, with the junior and intermediate boys both topping the field.

The senior boys took second, the junior and senior-girls were both third, and coming fourth were the intermediate girls.

# Champs unveil banner

Last season's Milton tykes show off their Tri County championship banner in the IceHawks' dressing room after unveiling it just before last Friday's 5-1 win over Streetsville.

Advertorial

## Local Mail Boxes Etc. centre hosts Open House on Saturday

The Mail Boxes Etc. (MBE) centre in Milton is hosting an Open House Saturday, October 23 from 1 to 4 pm in conjunction with six centres in neighbouring towns (Waterdown and Burlington) celebrating the ten year anniversary of three Burlington locations.

Among the many services offered at Mail Boxes Etc. (MBE) are: black and white and colour copying; document finishing, including binding and laminating; digital output; fax services; business printing; computer and graphic services; 24-hour private mail and parcel receiving; email and internet access; computer rentals; packing and shipping; office supplies.

In Milton, the MBE centre is located at:

420 Main Street East

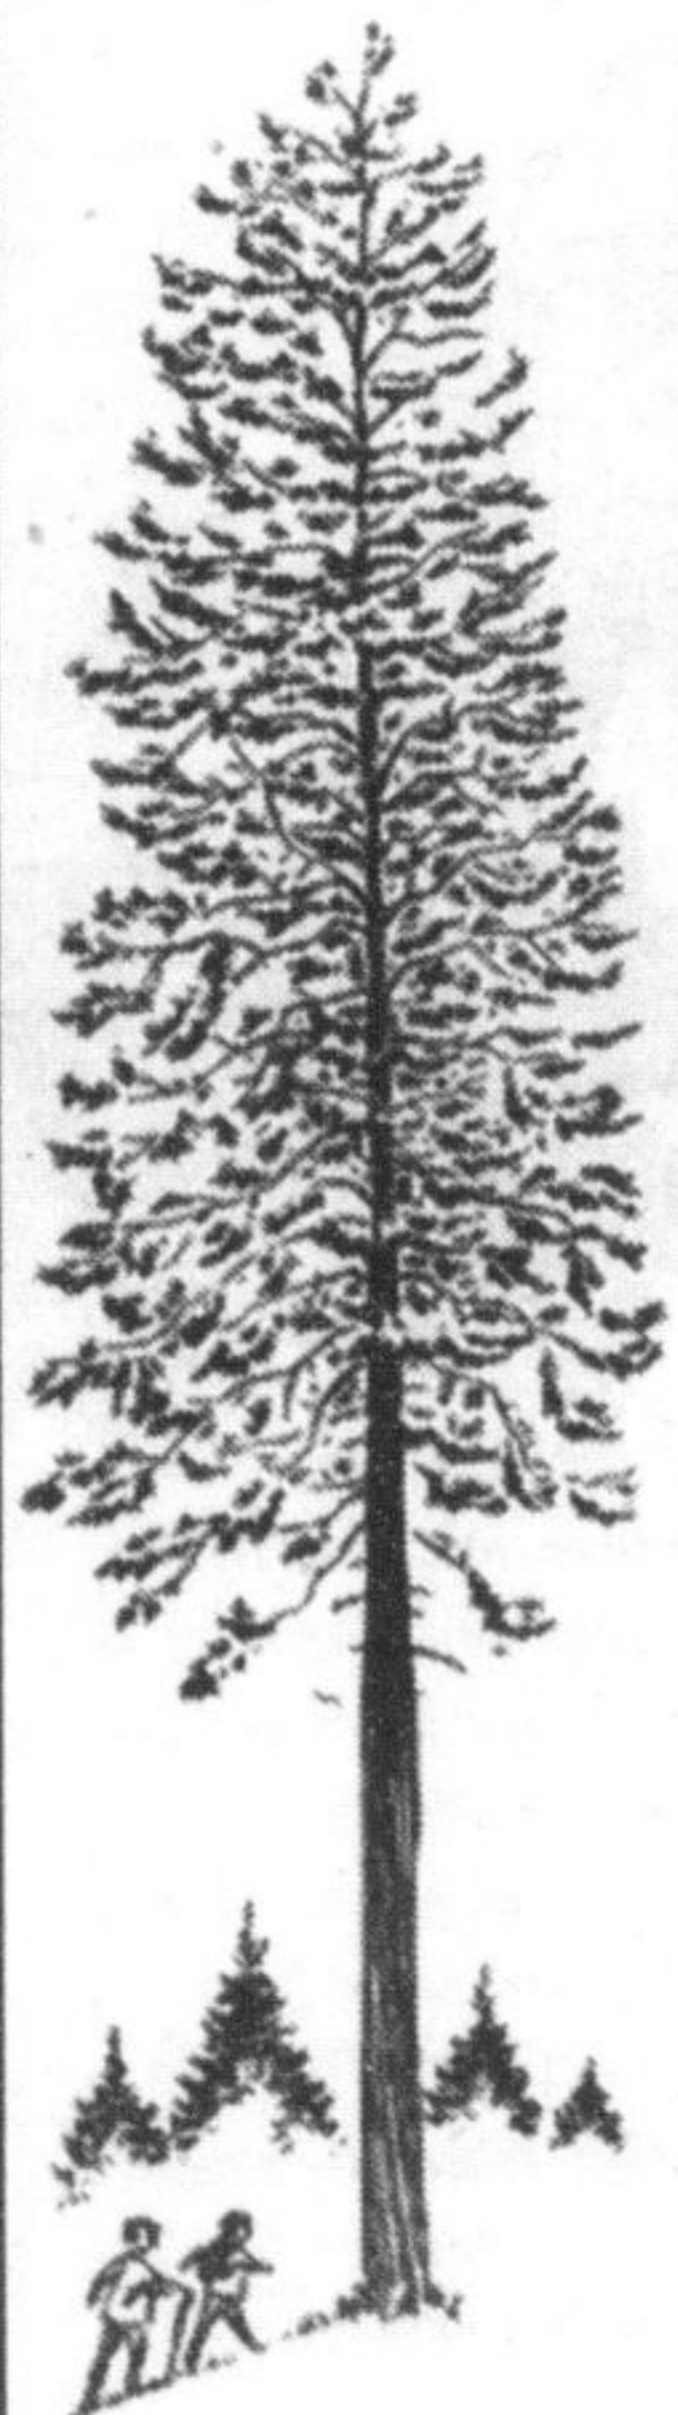

Franchisee: Susan Van Veen

Tel: 905-878-5955

Mail Boxes Etc. is an international chain of business and communications services. The worldwide network just celebrated the opening of its 5,000th centre. In Canada, the network is 275 centres strong — a significant achievement, states the Canadian Franchise Association, since most non-food retail franchise networks average 60 centres nationwide.

Non-perishable food donations are being accepted for the Partnership West Food Bank.

### NOTICE OF PUBLIC INFORMATION CENTRE

THE CITY OF GUELPH  
CLASS ENVIRONMENTAL ASSESSMENT  
FOR IMPROVEMENTS TO TREATMENT AT THE ARKELL AND CARTER WELL SUPPLIES

#### The Study

The City of Guelph, through their consultants, Stantec Consulting Limited and Associated Engineering Ltd., has commissioned a Class Environmental Assessment (Class EA) in support of water treatment improvements for the Arkell Well Collectors and Carter Well Supplies. Upgrades to the system must be undertaken to facilitate disinfection upgrades to ensure compliance with the new Ontario Drinking Water Regulation 170/03. In addition, the City is proactively undertaking further repairs and upgrades to maintain the reliability and security of this supply.

A separate Class EA is ongoing dealing with increasing the capacity of the Arkell bedrock well supply. Please contact Mr. Dave Belanger, (519) 837-5627, at the City of Guelph for more information on that EA.

#### The Process

The Study is being conducted in accordance with the Municipal Engineers Association's Class Environmental Assessment process. This Class EA addresses health related disinfection upgrades and does not include an increase in permitted capacities.

#### Public Information Centre

As part of the Study, a Public Information Centre (PIC) is planned for October 25, 2004 to present the project to the public and government review agencies for review and comment. This PIC follows the first PIC that was held on June 22, 2004 to introduce the project. The PIC will follow an informal, "drop-in" format by which large display boards will be used to present project information including background information on the study, the nature of the problems and the various alternatives considered, including the selection of a preferred solution. Representatives from the City, Stantec and Associated Engineering will be present at the PIC to answer questions and discuss comments on the study.

PUBLIC INFORMATION CENTRE  
MONDAY OCTOBER 25, 2004  
2 PM to 4 PM and 6 PM to 8 PM  
GUELPH TURFGRASS INSTITUTE

(G.M. Frost Research and Information Centre, 328 Victoria Road South, Guelph)

#### Comments

You are encouraged to attend the PIC and provide written comments so that they may be included in the study. We are interested in hearing any comments or concerns that you may have about this project. All written comments received at the PIC will be considered in the final decision on the preferred solution. With the exception of personal information, all comments will become part of the Public Record.

Following this meeting, a Project File Report will be written to document the Class EA process and the conclusions reached. The Report will be made available for public review for a period of 30 calendar days. The public will be notified of the date, time and location of the filing of the Report at the appropriate time through newspaper notices in the Guelph Mercury, the Guelph Tribune, the Wellington Advertiser, and the Milton Canadian Champion and by direct mailing to those in the project's contact database.

To request that your name be added to the project contact list, or if you have any questions or comments related to this study, please contact either of the following:

Mr. Brian Pett  
City of Guelph, Waterworks Division  
Works Department  
City Hall, 59 Carden Street  
Guelph, Ontario N1H 3A1  
Tel: 519-837-5627  
Fax: 519-822-8837  
email: bpett@city.guelph.on.ca

Mr. Dennis Mutti, P.Eng.  
Stantec Consulting Ltd.  
49 Frederick Street  
Kitchener, Ontario N2H 6M7  
Tel: 519-585-7438  
Fax: 519-579-6733  
email: dmutti@stantec.com

This Notice issued 8<sup>th</sup> October, 2004.
