

Milton man killed in crash

A 22-year-old Milton man died Saturday in Oakville after his motorcycle struck a Dodge Caravan from behind.

David Walker was riding his motorcycle eastbound on Regional Road 5 near Postridge Drive at about 2 p.m. when the

rear of the van was hit.

The motorcycle then crossed the centre median and was struck by oncoming traffic.

Mr. Walker — a long-time Milton-area resident — was taken to Oakville-Trafalgar Memorial Hospital where he suc-

cumbed to his injuries.

Any witnesses who haven't already provided a statement to police are asked to call Halton Regional Police Det. Const. Richard Solecki at (905) 825-4777, ext. 5108.

Residents get look at roadwork plans

By MELANIE HENNESSEY
The Champion

The Town unveiled its plans last week to give four in-town roads facelifts next summer, including new sidewalks, curbs, asphalt and storm sewer drain improve-

ments.

Parts of Williams Avenue, along with Pearl, Bruce and Court streets are slated for reconstruction potentially starting next June.

Local residents had a chance to take a closer look at the project drawings last week at a public information centre held at Hugh Foster Hall, with some having mixed reactions about the work proposed.

Jan Gooden, a Williams Avenue resident, said she was glad to see a sidewalk was finally going to be put in on her street.

"I'm happy they're going to do it. My grandson has never been able to play in the front," she said, adding that now he can ride his bike up and down the sidewalk.

The Williams Avenue project will be focused on the stretch from Parkway Drive to Commercial Street. The new sidewalk will run down one side of road, cutting across some boulevards and driveways.

The road is also being slightly narrowed, creating boulevard space between the sidewalk and the asphalt and keeping the sidewalks farther away from residents' front doors.

The Region will participate in the Williams Avenue project with water main and sanitary sewer replacements.

The other road projects — Pearl Street from Ontario to Fulton streets, Bruce Street from Main to Pearl streets and Court Street from Main Street to south of Pearl Street — will involve revamping and widening existing sidewalks, installing curbs and laying new asphalt.

Milton Public Library Chief Librarian Leslie Fitch came out to the public information centre to voice her concerns on the potential impact the roadwork could have on library parking access. The parking lot entrance and exit are located on Pearl Street. Ms Fitch explained the library sees about 4,000 people per week, leaving her worried about pedestrians and drivers heading through a construction zone.

Milton Infrastructure Manager Cathy Robertson assured Ms Fitch the Town will try to minimize the impacts the best that it can. She said staff hope to get the projects out to tender during the winter months so that work can get underway by late May or early June, possibly running all summer.
