Help Keep Halton Beautiful Blue Box Recycling Tips

You can help reduce litter with some simple steps to prevent your recyclables from taking flight on windy days. Please ensure your blue box materials are placed curbside in a secure manner.

- On windy days, place your blue boxes out for collection by 7:00 a.m. the morning of collection day instead of the night before.
- If possible, stack your blue boxes on top of one another to prevent papers from blowing away.
- Fill boxboard boxes with other boxboard material.
- Place heavier items on top of lighter items.
- Flatten and tie large cardboard boxes and place securely underneath or between your recycling boxes.

Halton Region Recognizing Youth Environmental Initiatives

Chairman
Joyce Savoline

The upcoming holiday season provides the perfect opportunity to think of the gifts provided to us by our natural environment and to reflect on how each of us can contribute to our environmental well-being. Halton Region, in partnership with the Chairman's Round Table On the Environment, is offering two awards programs designed to support the efforts of Halton's young people and encourage them in their environmental leadership. We urge all parents, teachers and students to visit our website at www.haltonbusiness.com or contact us for more information about the Halton Environmental Scholarship Awards and the Halton Youth Awards For Environmental Excellence.
