

Flamboyant LAWN & GARDEN

OUTDOOR LIVING - Backyard oasis

(NC)—Canadians increasingly desire a fulfilling and rewarding lifestyle. However the demands of work often make this impossible to achieve. The coming of the summer sun is the perfect opportunity to spruce up your backyard and make it your own oasis away from outside demands. The home décor team at Canadian Tire has some ideas on how to create the perfect escape for you and your friends and family.

- Whether you are planning a family barbecue or a formal gathering, it's important to ensure that there is adequate seating for your guests. When selecting a patio set consider the following:

- Select something that is durable and comfortable. Make sure the set is rust proof, so it can stay outside through all summer weather. A set like the Richmond Collection at Canadian Tire adds a tropical feel to your backyard and will not rust.

- Consider the size of your backyard when choosing a set. If you have a smaller space you may want to consider a bistro set to complement your space.

- Seat cushions are an excellent complement to patio sets, providing a splash of colour and extra comfort for your guests.

- Don't forget extra chairs for unexpected guests.

- An outdoor kitchen cart and large serving pans are an ideal way to prepare food while

spending time with your guests outside.

- Add a splash of colour to your table with co-ordinated tablecloths, place mats, acrylic plates, cups, bowls and silverware. Sets such as the Enjoy line at Canadian Tire make finding matching items easy and affordable.

- Continue the party into the night by lighting up your deck with Enjoy lantern string lights and candles. The soft light will create a warm and inviting atmosphere.

- Mosquito coils and magnets will help keep the bugs at bay so that your guests can relax and be comfortable.

- Create a space just for you. After the guests are gone you will need a place to relax and enjoy yourself. A large, comfortable chair situated away from the guest area is the perfect way to unwind.
