

Nothing Runs Like a Deere!

John Deere products are known worldwide for their quality and reliability. The green and yellow equipment along with the leaping deer logo, is one of the world's most recognized symbols. Throughout the history of John Deere, the company has earned a reputation for high quality and integrity. These high expectations are maintained in Milton by our local John Deere dealer, better known as Halton Turf and Tractors.

Local Miltonians, Steve Marshall and Larry Wigood live up to these high standards not just because it is good business, but because it is the right thing to do and it's what their customers have come to expect. Steve has been the sales manager for the past 8 years and heads up the top notch sales team. Originally from a farm in the area, his first hand knowledge of commercial and lawn care equipment is extremely handy. Larry has been the service manager since 2001. He holds over 28 years experience working with heavy equipment as a licensed technician and as a manager of a large government fleet. Both men thoroughly enjoy working together at Halton Turf and Tractors. Their background experience and strong roots within the Milton community compliment one another very well. All this combined, made perfect sense for the two of them to join forces. The opportunity arose in March of this year and Steve Marshall and Larry Wigood became partners.

Halton Turf and Tractors was originally opened under the name of Arnolds Lawn and Garden in February of 1974. The local John Deere dealership is proud of the fact that they have been in Milton for over 30 years and prides itself on quality sales, service and parts. One of the core strengths of Halton Turf and Tractors, is their experienced and devoted staff. Many of the staff at Halton Turf and Tractors have been with the business for several years. Steve and Larry believe their people make the difference in providing high level service to their customers.

From portable power equipment and utility vehicles, commercial mowers and lawn tractors, 20-65hp skid steer loaders, mini excavators, snow plows and blowers, Halton Turf and Tractors can service all of your heavy equipment needs. The John Deere line has expanded far beyond the plow invented by John Deere himself in 1837. They also stock a premium line of snow plows produced by Boss along with a large array of Echo outdoor power products.

Their parts department is based on the premises and maintains a large stock to minimize downtime. 97% of John Deere parts are available within one working day. The parts are all of the same quality as their products – superior! The same replacement parts are still used that were installed during the original production. The service staff are extremely well trained and dedicated to achieving and maintaining the highest level of quality on all their repairs. They also attend regular John Deere training sessions for increased product development and awareness. With genuine John Deere service support being the best in the industry along with our factory trained technicians, it is no wonder our customers speak highly of our service and dedication. Larry is extremely proud of their on-going training. They provide a mobile on-site service for warranty and maintenance repairs wherever you are! Halton Turf and Tractors has an extremely high customer retention rate due to their quality of service and philosophy – the customer comes first!

After a couple of moves over the past 9 months, Halton Turf and Tractors is settled in their new home at 15 Steeles Avenue at Bronte Street. The new location is ideal for large equipment to gain easy access to the shop. It is important as a full service John Deere dealership to have room to attend to our customers needs.

Meet the New Partners of Halton Turf and Tractors

Steve Marshall and Larry Wigood are the proud partners of the New store which carries commercial and lawn care equipment. Come visit them at their new location at 15 Steeles Avenue, Milton, 905-878-2121.
