

Show at sports centre for new and expecting parents

For young families who've just moved into Milton, becoming familiar with all the services around town can be overwhelming. The same goes for those who've been in Milton for years.

With that in mind, Birth Connections will host its first ever Bellies and Babies day for new and

expecting parents tomorrow.

The free event will take place at the Milton Sports Centre from 10 a.m. to 3 p.m.

Taking part in the show will be: Birth Connections, Barrow Family Chiropractic, Creative Memories, Creative Rooms by

Michelle, Caught in a Moment Photography, the Early Years Learning Centre, La Leche League and the Vitality Centre.

The day will include information sessions and demonstrations on various topics.

At 11 a.m. a belly casting information session

and demonstration will take place, and at 1 p.m. a seminar entitled 'Labour Comfort Measures and Delivery Positions' will be held. Visitors will be able to find out more about the Vitality Centre in a session at 1:30 p.m., and at 2 p.m. there'll be a workshop on labour support and doulas.

The Regional Municipality of Halton

A Partnership That Works!

NOTICE OF PUBLIC INFORMATION CENTRE #1

Tremaine Road (Regional Road 22) and James Snow Parkway (Regional Road 4) Transportation Corridor Improvements, Town of Milton Class Environmental Assessment Study

The Regional Municipality of Halton is carrying out a Class Environmental Assessment for Tremaine Road (Regional Road 22) and James Snow Parkway (Regional Road 4) Transportation Corridor in the Town of Milton (refer to map below). This assessment will consider a wide range of options for transportation corridor improvements to satisfy future travel demands in the Sherwood Survey Secondary Plan area. The transportation component of the study is being conducted in compliance with Schedule C of the *Municipal Class Environmental Assessment* (June 2000), which is approved under the Ontario Environmental Assessment Act.

A key component of the study will be consultation with interested stakeholders (public and regulatory agencies) at two Public Information Centres (PICs). The first PIC has been arranged for:

Date: Wednesday, June 8, 2005
Time: 6:00 - 6:30 p.m. Drop-in centre
 6:30 - 9:00 p.m. Presentation followed by question and answer session
Place: Milton Sports Centre, Banquet Room
 605 Santa Maria Boulevard, Milton

The purpose of the PIC is to review and obtain public input on the corridor alternatives for Tremaine Road and James Snow Parkway extension, factors for analysis and the selection of the preferred corridor. The preferred corridor is being selected by considering the Natural Environment, Social, Economic and Transportation Operation effects and impacts. Anyone with an interest in the study is invited to attend and participate. If you cannot attend and would like to provide comments, please forward them by **Wednesday, June 22, 2005** to the Regional Municipality of Halton at the address below. Following the PIC, study findings will be reviewed in light of comments received and preferred routes for each corridor will be determined. A second PIC will be scheduled for January 2006.

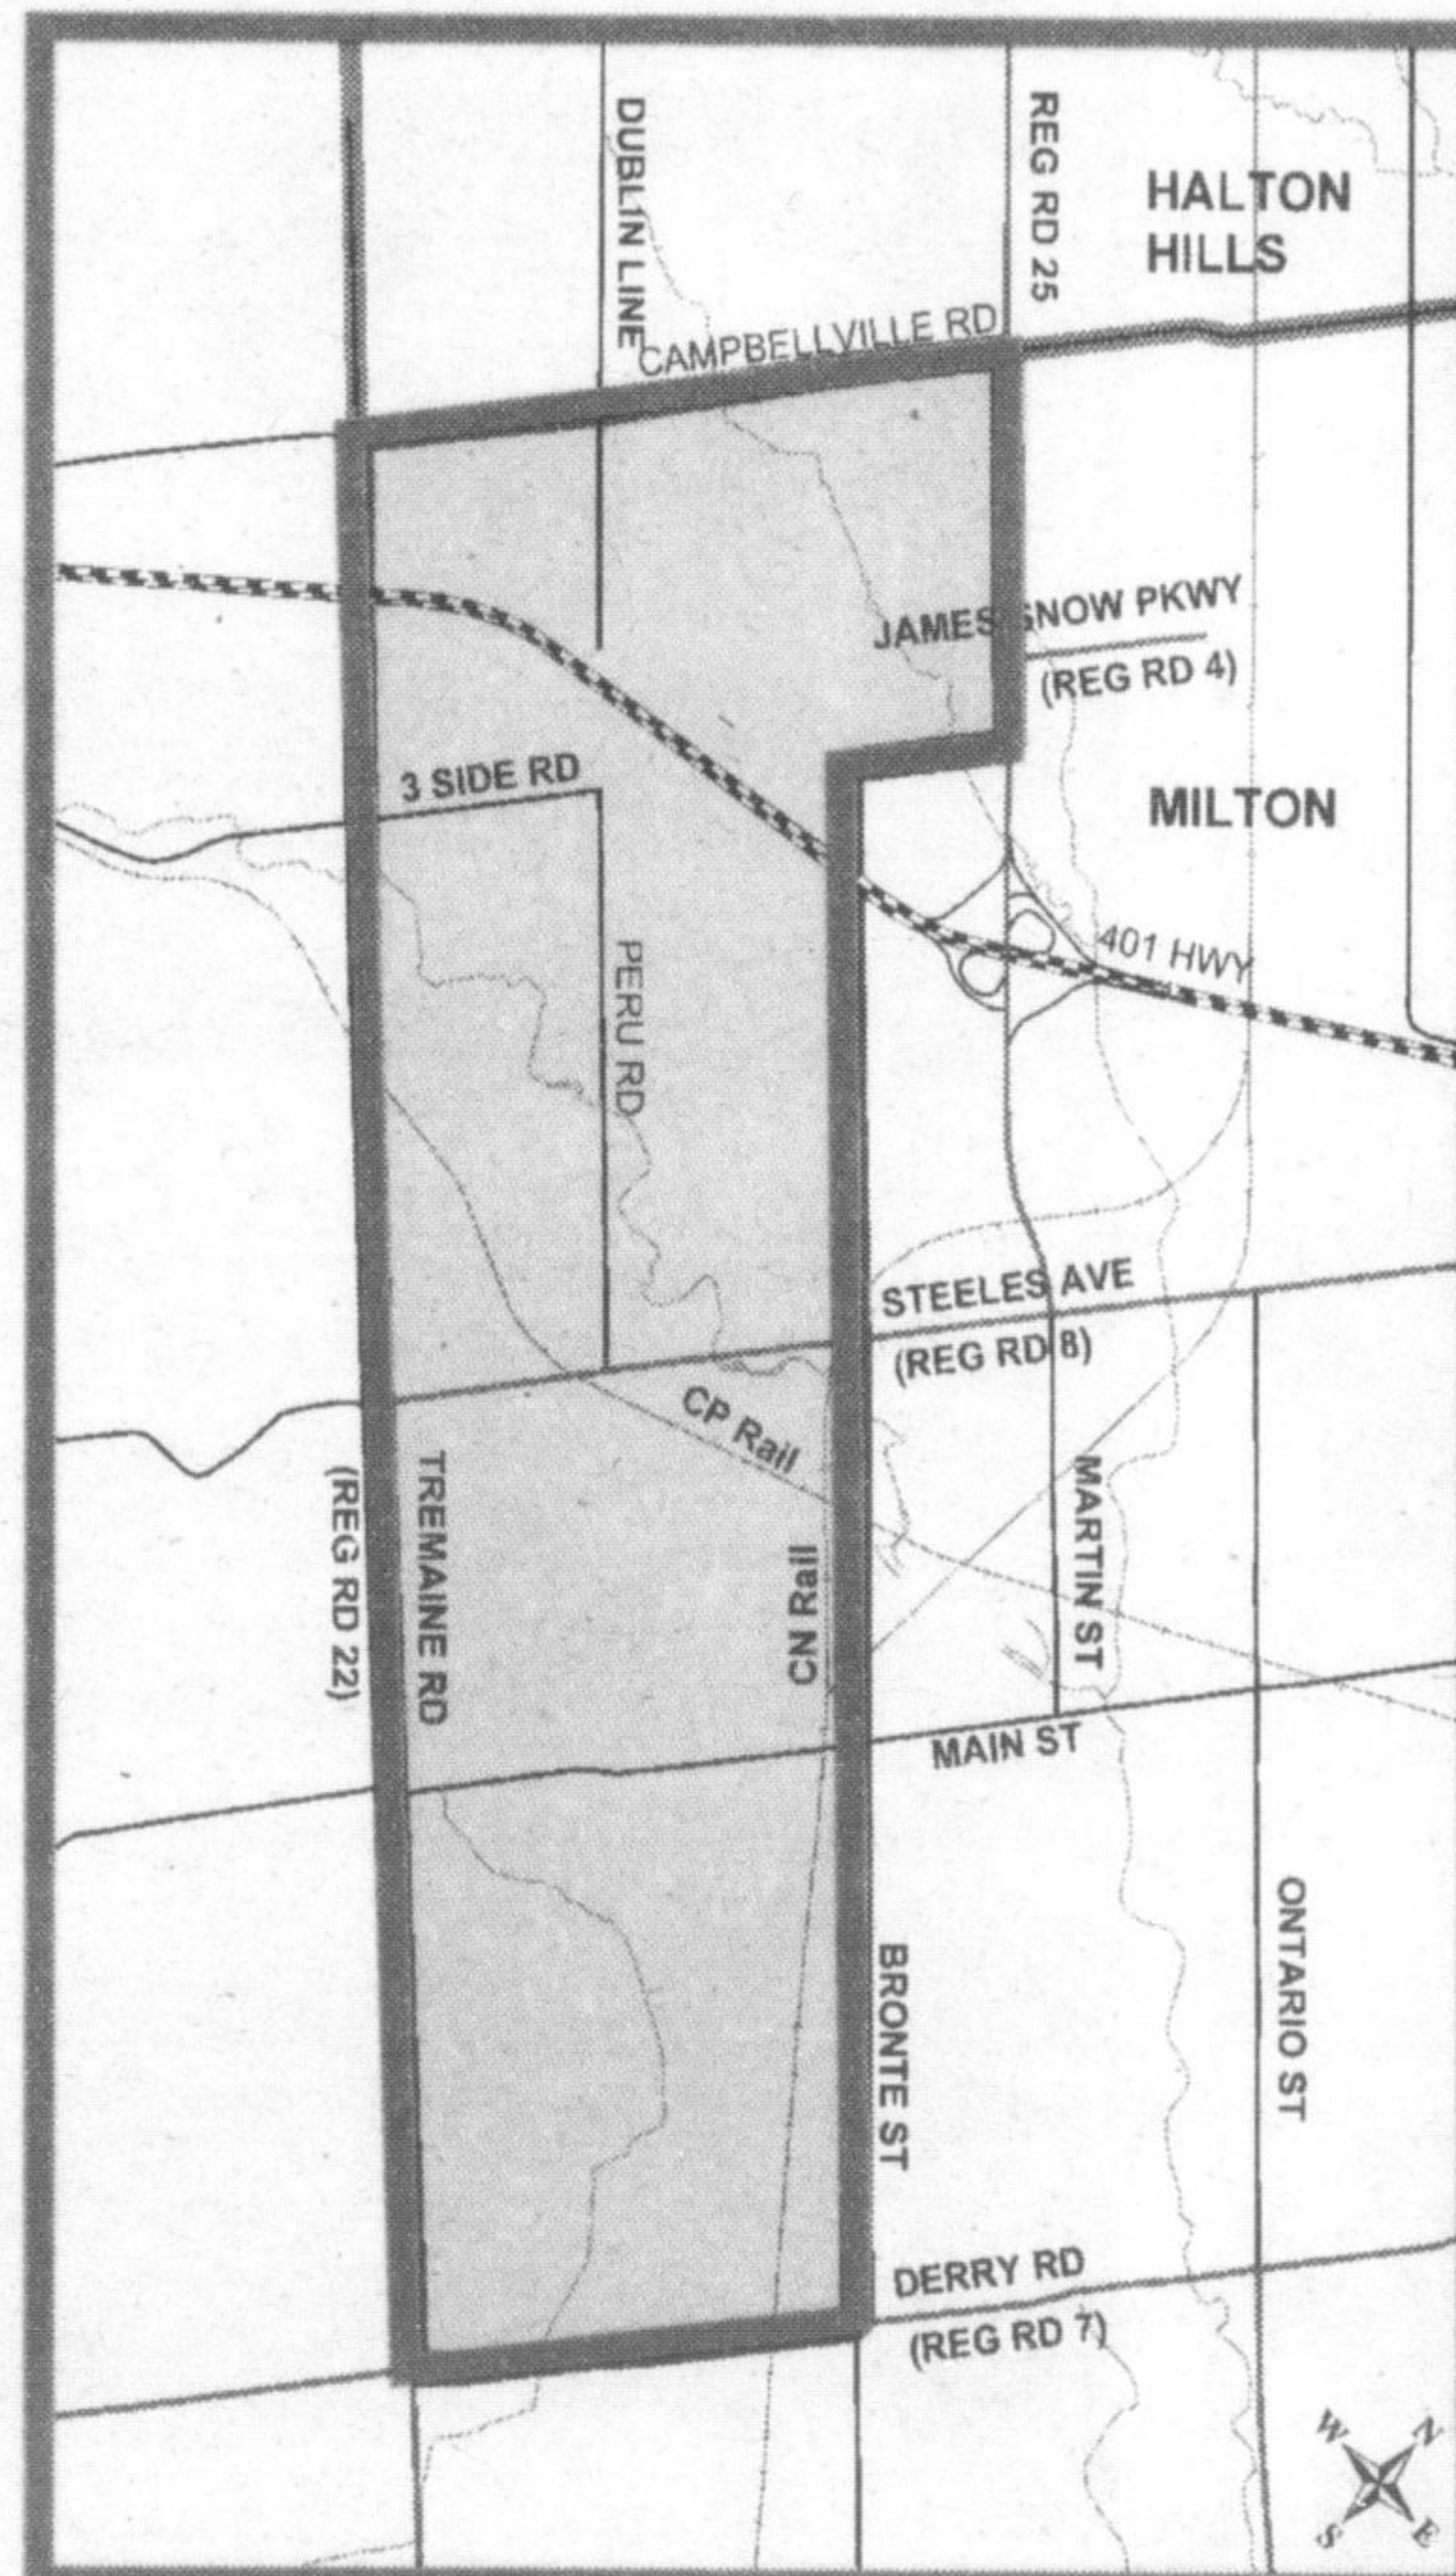

Information requests or questions may be directed to:

Mr. Edward Soldo, P.Eng.
 Manager, Transportation Services
 Regional Municipality of Halton
 Tel: 905-825-6000, ext. 7475
 Fax: 905-825-8822
 Email: soldoe@region.halton.on.ca

Mr. Neil Ahmed, P. Eng.
 Project Manager
 McCormick Rankin Corporation
 2655 North Sheridan Way
 Mississauga, Ontario L5K 2P8
 Phone: 905-823-8500 ext. 241
 Fax: 905-823-8503
 Email: nahmed@mrc.ca

This notice first issued on May 27, 2005

The map below shows the approximate limits of the study area.

To receive collection, please call Halton Region at 1-866-442-5866.

Metal items and appliances include refrigerators, freezers, dishwashers, stoves, washers, dryers, metal furniture, broken down swing sets, etc.

Halton Region supports Safe Kids Week

Each year in Halton, one in 10 pre-school children under the age of six are rushed to hospital due to preventable injuries, including falls, poisonings and burns. Most of these injuries occur in areas of the home: kitchens, bathrooms, bedrooms, stairways and living rooms. Active supervision, anticipating the next step and role modelling safety behaviour are important for parents and caregivers to remember.

Halton Region is proud to highlight the importance of childhood injury prevention during Safe Kids Week - a national campaign on children's safety, which runs from May 30 to June 5. Halton Region is committed to raising awareness about home safety in order to decrease the number of preventable injuries to children aged 0 to six years.
