

# Some dealers like to talk about anything other than warranties.

We'd rather talk about our warranties than anything else.

## Here's just a sample of over 250 vehicles we have in stock.

Every one of our cars is carefully selected and must pass our 110-point mechanical, appearance and detail inspection before it ever goes on the lot. If it fails, we won't sell it. We back that up with a 30-day or 2500 km exchange policy, a 6-month or 10,000 km powertrain warranty and a 30-day mechanical warranty. And we put it in writing. Few used car dealerships can offer you that kind of peace of mind. But then again, you would expect a company established in the 60's to be big on peace.

# Potential tax hike lowered

Maximum 5% increase to be considered

A decision made by Milton council Monday night lowered next year's potential tax increase by about \$10.

While staff reported that a seven per cent hike — or about \$40 more for the average homeowner — would be required to maintain existing service levels, council directed staff to prepare packages that show what the operating budget would look like with no tax increase, a 2.5 per cent increase (\$15) and a five per cent hike (\$30).

Council also supported Ward 4 Councillor John Challinor's amendment that deleted the staff recommendation that called for an extra two per cent tax increase, or about \$10, to cover the Town's loss of a \$250,000 provincial grant.

Town Director of Corporate Services and Treasurer Jim McQueen told The Champion there are a number of things staff will be considering to cover the \$250,000 shortfall, such as reducing service levels or cutting back on contributions to reserves.

"It (the loss) has to be made up somehow," he said.

In 2001 and 2002, there were no tax increases in Milton, while in 2003 and last year there were two per cent jumps.

This year, the budget was approved by council with a three per cent tax increase, or about \$18 for the average ratepayer.

Staff also forecast a 4.25 per cent tax increase, or about \$25 more, in 2007.

# No human West Nile cases found

from WEST on page A1

woven clothing to cover exposed skin when outdoors from early evening to morning

- Using a mosquito repellent approved by Health Canada's Pest Management Regulatory Agency

- Making sure all windows and doors in the home have screens in good condition.

The Region also suggests residents reduce mosquito breeding grounds around their homes by draining standing water, removing old tires, turning over items that may collect water, changing birdbath water weekly and keeping eavestroughs clear.

West Nile virus has been detected in Halton for the last four years in the bird and mosquito population. While there've been no human cases of the disease in Halton for the past two years, 60 residents were diagnosed in 2002.

Maps showing the locations of where positive birds were found, as well as standing water sites and catch basins where larvicide has been applied, are available on the health department's Web site at [www.region.halton.on.ca/health](http://www.region.halton.on.ca/health).

To report a dead bird or standing water or for more information about West Nile virus, call the health department at (905) 825-6000.
