Discovering Downtown
Milton

So Many Books... So Little Time

"So many books - so little time" is a phrase you'll hear often at Recycled Reading, located at 150 Mill Street, in downtown Milton. Recycled Reading is proud to serve Milton's bookworms for over 13 years now at various locations throughout the years because they keep out growing their premises.

Currently Recycled Reading has over 30,000 previously enjoyed books in stock, both fiction and non-fiction covering a vast variety of subjects. They also know what Milton likes to read! Miltonians enjoy a lot of Murder Mysteries, Romance, True Crime, and true to our rural heritage, Westerns.

Recycled Reading also carries a large selection of books in the subjects of Art, History, Theology, Decorating, Cooking, Outdoors and much, much more including thousands of kid's books from toddlers to teens. They also have special book sales every month so it's always worthwhile to stop by, and if you can't find what they are looking

for, Recycled Reading offers a free book search that will automatically reserve the book for you when it comes in.

Lorraine, the owner and manager of Recycled Reading, offers her clientele a large variety of books, economy, and friendly service. She believes that everyone in Milton should be able to have access to a great selection of books that are economical on our wallets and purses. She invites people to come down and bring in your "previously enjoyed" books (good condition please) for a bookstore credit (20% of the cover value) and shop from their many titles for 50% or less of the cover price.

Recycled Reading also invites you to stop by Scrapbook Paradise located in their store.

Scrapbook Paradise is an excellent store for all of your scrapbook needs and to get information on how to start your own scrapbooks for past memories involving family, friends and loved ones.

Are you an avid reader looking for great book selection, good prices, and friendly service? If you are, Recycled Reading should be a definite stop for your book shopping in the future.
