NOW OPEN SUNDAY 11-4

Every one of our cars is carefully selected and must pass our 110-point mechanical, appearance and detail inspection before it ever goes on the lot. If it fails, we won't sell it. We back that up with a 30-day or 2500 km exchange policy, a 6-month or 10,000 km powertrain warranty and a 30-day mechanical warranty. And we put it in writing. Few used car dealerships can offer you that kind of peace of mind. But then again, you would expect a company established in the 60's to be big on peace.

Catholic trustees get info on facility

By KIM ARNOTT
Special to The Champion

Halton Catholic District School Board trustees looked over a proposal for a new shared facility that would house Halton's two school boards, the offices of the regional government and Halton Regional Police at its meeting Tuesday night.

The proposal, which went before the board for information purposes, would see the public and Catholic school boards move into an expanded facility on the Bronte Road site of the current Halton regional building.

The concept was described as exciting and innovative by Catholic school board staff.

With significant population growth on Halton's horizon, and each of the four organizations operating in administrative buildings in need of expansion or replacement, the proposal offers a way to build a new facility that maximizes the value to taxpayers, explained Giacomo Corbacio, superintendent of facility services for the Catholic school board.

Catholic school board staff have been investigating the board's need for a new administrative office for the last three years, noted Mr. Corbacio.

"Currently, our central office space is overcrowded and our staff are dispersed among four locations in Burlington and Oakville," he said, adding that repairs or upgrades are also needed for several of those administrative buildings.

Last fall, the Catholic board and the public board, which is also facing the imminent need for more administrative space, were approached by Halton region with the proposal of a shared facility.

The \$75,000 cost of undertaking a joint accommodation study was shared equally by the region and the two school boards.

For the Catholic school board alone, noted Mr. Corbacio, a shared building would result in a savings of about \$6.2 million over the construction of a new administrative headquarters.

As well, he told trustees, the board would benefit from access to facilities it could never afford to have on its own.

The unique nature of the building, which currently doesn't exist elsewhere in Ontario, may help attract additional funding from other levels of government, he added.

"We feel that this project is going to attract interest from the Province," said Mr. Corbacio. "It's an innovative partnership concept."

The proposal also offers the Catholic and public school boards, each of which currently operates out of locations in Burlington, the opportunity to centralize their operations within the region.

"The growth, as everyone is aware, is happening in Milton, Halton Hills and part of north Oakville," said Mr. Corbacio.

In the coming few weeks, all parties involved will be asked to approve further investigation of the project through the development of a joint Memorandum of Understanding.

The matter will go back before the board November 1.

If completed, the new site, being described as the "Halton Regional Campus," would house a combined 1,910 staff.
