*Milton's Most Luxurious Cosmetic & Laser Centre*

Anne Maaden Cosmetic & Laser Centre is one of the most unique medispas in the GTA and is located right in the heart of downtown Milton. Owned and operated by Carol Van der Maaden, Natalie Van der Maaden and Judith Finn, the clinic offers more than just laser hair removal.

A trip to Anne Maaden will offer exciting and valuable understanding of the latest technology within the cosmetic industry. The owners of Anne Maaden have had their fingers on the pulse of the latest equipment since their opening November 8, 2004. They were the first in the area to offer Blue Light Laser Treatments with Levulan, in order to treat acne with phenomenal results. Results exciting enough to partner with local dermatologists and physicians to fight one of the most persistent skin conditions. Anne Maaden also offers Photo Facials or IPL, one of their most popular treatments. Similar to Blue Light Laser therapy, this laser helps relieve the skin of conditions such as rosacea and sun damage with the added perk of skin tightening.

Other services at the clinic include laser hair removal, microdermabrasion, 90 minute clinical facials, non-surgical face lifts, cellulite treatments, treatments for stretch marks, electrolysis and skin tag removal. Their physician, Dr. Jennifer Bonnett, performs injectable treatments such as botox, restylane, perlane, collagen, and sclerotherapy for the treatment of leg veins.

The ultimate mission of the centre is not only the level of service that it offers to clients, but the education that the staff of Anne Maaden can provide. Anne Maaden is a leader in training and education as it is partnered with Sheridan College and offers the only course that results in a certification for laser hair removal. With many clinics opening up as the wave of cosmetic enhancement continues, it is often difficult to know what procedures will benefit you? What type of equipment is superior to another? What type of technologist should perform which kinds of treatments? It is important to note that not all cosmetic equipment is made equally. Just as the cost of treatments vary from centre to centre, so does the price of the technology that's being used. You want to ensure that you will benefit from your treatments, which means you should select equipment that is medical grade, meaning a physician and nurse are on staff to prescribe treatments and monitor the usage of equipment.

Clients are encouraged to book a full one hour consultation with our medical team to determine the best treatment for their needs. Cosmetic treatments are an investment in yourself, and the staff of Anne Maaden will ensure that dependent on the client's needs, every client will receive the most beneficial treatment with the most state-of-the-art technology.

Anne Maaden is offering complimentary consultations for fall and are encouraging readers to mention this article for special savings.
