## NOTICE OF PUBLIC INFORMATION CENTRE #1

### Steeles Avenue (Regional Road 8) Transportation Corridor Improvements James Snow Parkway (Regional Road 4) to 250 metres West of Trafalgar Road (Regional Road 3), Town of Halton Hills Class Environmental Assessment Study

The Regional Municipality of Halton is carrying out a Class Environmental Assessment to consider a wide range of options for transportation corridor improvements to satisfy future travel demands on Steeles Avenue (Regional Road 8) from James Snow Parkway (Regional Road 4) to 250 metres west of Trafalgar Road (Regional Road 3), in the Town of Halton Hills (see map below). In order to best address operational deficiencies along the Steeles Avenue corridor, a number of road improvement alternatives will be examined as part of the study including widening of the roadway, cross-sectional elements, intersection improvements, over all traffic operations, as well as the impact of such improvements on the social and natural environments. The study is being conducted in compliance with Schedule C of the Municipal Class Environmental Assessment (June 2000), which is approved under the Ontario Environmental Assessment Act.

A key component of the study will be consultation with interested stakeholders (public and regulatory agencies) at two Public Information Centres. The first Public Information Centre has been arranged for:

Date:	Tuesday, November 29, 2005	
Time:	6:30 p.m. to 7:00 p.m.	Drop-In Centre
	7:00 p.m.	Presentation followed by question and answer session
Location:	St. Stephen's Anglican Church - 14996 Steeles Avenue, Hornby	

The purpose of the Information Centre is to review and obtain public input on the problem being addressed, background information and the alternatives being considered. Anyone with an interest in the study is invited to attend and participate. If you cannot attend and would like to provide comments, please forward them by December 16, 2005 to the Regional Municipality of Halton at the address below. Following the Information Centre, the study findings will be reviewed in light of comments received and the preferred alternative will be determined. A second Information Centre is tentatively scheduled for March 2006.

The map below shows the approximate limits of the study area.

Information requests or questions may be directed to:
