

Pretty snaky

Above, rattlesnake handler Brian Krigner shows a coral snake (not alive) that he brought along with other creatures for the 7th Milton Scouts and Cubs to see during their recent meeting at St. Peter's School. Above right, scout leader Karl Dunby (left) holds the head of a 23-foot anaconda snake skin while Mr. Krigner unravels the body. Below, scouts and cubs check out snake skins and other artifacts at the presentation.
