

Town and Canadian Tire team up in kids' physical activity program

The Town is joining forces with Canadian Tire to promote physical activity for youngsters.

As a community partner in JumpStart — a national partnership program of the Canadian Tire Foundation for Families — the Town will identify children in financial need who wish to participate in sports and recreational activities.

The aim of the program is to provide children with the opportunity to participate in sports and

recreation so they can develop essential life skills, self-esteem and confidence.

It's funded through a variety of initiatives, such as the Great Skate event that took place at Milton Memorial Arena in February.

The first JumpStart Milton chapter meeting took place in March and since then the Town has been able to assist three youths in receiving funds from the program to participate in

sports activities. For 2006, \$4,000 has been allotted for the Milton community.

The JumpStart program applies to those aged four to 18 and will fund a maximum of \$300 per child per session. Funding is available for members of the same family for the same season and can be provided to the same child for successive seasons.

For more information on the JumpStart program call (905) 878-7252, ext. 2755.

Fundraising event to benefit Crohn's and Colitis Foundation

The Halton chapter of the Crohn's and Colitis Foundation of Canada will hold its 11th annual Heel 'n' Wheel-a-thon June 4 at Spencer Smith Park in Burlington.

Participants of all ages are encouraged to walk, run, bike, in-line skate, walk a dog, push a stroller — anything involving their heels or wheels.

There will be live music by local Hamilton groups Prologic and The Hollywood Way, as well as M&M's burgers and hot dogs, face painting,

Happy Harriet the Lady Clown and prizes awarded to those who collected the most pledges.

A goal of \$30,000 has been set for Halton.

The event, which takes place in several cities across Canada every June, raises funds for medical research into Inflammatory Bowel Disease (IBD).

The Halton chapter says new research shows that Canada has the highest incidence of IBD in the world.
