

Your Invitation To Worship

A View From the Zoo!

Sometimes, God lets us fall so that we can learn how to get back up again! He knows how hard life can be! He also knows that there are times where we will get knocked down – but His hope for us is that we will not be knocked out. The Holy Bible is full of examples of individuals who suffered setbacks – but those setbacks paved the way for comebacks!

In A View from the Zoo, Gary Richmond tells about the birth of a giraffe:

The first things to emerge are the baby

giraffe's front hooves and head. A few minutes later the plucky newborn is hurled forth, falls ten feet, and lands on its back. Within seconds, he rolls to an upright position with his legs tucked under his body. From this position he considers the world for the first time and shakes himself.

The mother giraffe lowers her head long enough to take a quick look. Then she positions herself directly over the calf. She waits for about a minute, then she does the most unreasonable thing. She swings her long, pendulous leg outward and kicks her baby, so that it is sent sprawling head over heels.

When it doesn't get up, the violent process is repeated over and over again. The struggle to rise is momentous. As the baby calf grows tired, the mother kicks it again to stimulate its efforts...Finally, the calf stands for the first time on its wobbly legs.

Then the mother giraffe does the most remarkable thing. She kicks it off its feet again.

Why? She wants it to remember how it got up! In the wild, baby giraffes must be able to get up as quickly as possible to stay with the herd, where there is safety. Lions, hyenas, leopards, and

wild hunting dogs all enjoy young giraffes, and they'd get it too, if the mother didn't teach her calf to get up quickly and get on with it!

Are you down? God wants to help you get back on your feet again! Learn more by visiting a local church this week. Service times and locations are published in the Religious Directory below to help you.
