More Pond Myths Debunked

Water in the landscape is a lifestyle more and more
people are choosing every day. Check back each week
as we dispel some of the common myths surrounding
this latest trend in gardening.

Myth 8: A water garden costs a fortune.

Fact: A water garden is certainly an investment, but it no
longer has to be a money pit. At the most affordable end of
the spectrum, do-it-yourself (DIY) kits with everything you need
except the large or live stuff that doesn't come in the box
(rocks, pebbles, fish, plants, etc.) for less than \$1,500.00
plus a healthy amount of sweat equity for an 8' by 11' pond
and waterfall. Low-maintenance water gardens are considered
good landscaping investments that can pay for themselves in
increased home equity.
