The Cat's Den

The Cat's Den provides a safe way for your pet to go outside. Your pet stays safe and healthy while

enjoying the benefits of the great outdoors. To survive winter climates, the enclosures are made from galvanized steel mesh and we use cedar for perches. We offer many do-it-yourself options as well as custom designs installed by our professional crew. The Cat's Den is not only a paradise for your pet but it can add beauty to your home or disappear into the garden. We also offer hammock stands and custom built facilities for any other pets that might need extra security in your home.
