putting your **energy** to good use

Ontario Power Generation (OPG) is an Ontario-based generation company, whose principal business is the generation and sale of electricity. Our focus is on the efficient production and sale of electricity from our generation assets, while operating in a safe, open and environmentally responsible manner.

The following Mechanical Technician/Technologist Trainee positions are located at our Nanticoke Generating Station near Port Dover, Ontario, and our Lambton Generating Station near Sarnia, Ontario.

MECHANICAL TECHNICIAN/TECHNOLOGIST TRAINEES

In this role, your accountabilities will increase based on experience and training, building up to what a fully qualified Mechanical Technician/Technologist will perform. You will carry out mechanical composite trade duties, such as maintenance, installing and troubleshooting mechanical equipment and systems, covering all areas of welding, pipefitting, rigging, machining, millwrighting, testing and drafting (civil and mechanical). Your other duties may include contract coordination, preparation of quality control procedures and performance of non-destructive examinations/testing on major and auxiliary equipment.

As our ideal candidate, you require a minimum of a Grade 12 education, as well as the completion of a two-year college Technician/Technology program in a related field and trades-related experience.

The following Electrical and Control Technician/Technologist Trainee positions are located at our Nanticoke Generating Station near Port Dover, Ontario, Lambton Generating Station near Sarnia, Ontario and Thunder Bay Generating Station in Thunder Bay, Ontario.

ELECTRICAL AND CONTROL TECHNICIAN/ TECHNOLOGIST TRAINEES

As an Electrical & Control Technician/Technologist Trainee, your accountabilities will increase based on experience and training, building up to what a fully qualified Electrical & Control Technician/Technologist will perform. This will include work such as inspecting, diagnosing, testing, troubleshooting, service, maintenance, calibration and overhaul on a variety of electrical, electronic instrumentation and control equipment, protective relaying and drafting (civil and electrical). Your other duties may include contract coordination, preparation of quality control procedures and performance of non-destructive examinations/testing on major and auxiliary equipment.

As our ideal candidate, you must have a minimum of a Grade 12 education, as well as the completion of a two-year college Technician/Technology program in a related field and trades-related experience.

These positions require Trainees to attend and complete various training courses and field assignments during their training program. Travel, on occasion, will be required. Applicants must have the flexibility to work shifts and weekends.

Qualified and motivated women and men must apply online at www.mypowercareer.com no later than midnight Wednesday, October 18, 2006.

Candidates must be eligible to work in Canada. Please note that only those candidates selected for testing will be contacted. Ontario Power Generation supports the principles and practices of diversity.
