

## Starting from \$39,990

### Introducing the unmistakable sound of the all-new 2007 Infiniti G.

A revolutionary automobile that has achieved the extraordinary - it has been thoroughly re-designed from engine-out with the driver in mind. With options like Adaptive Front lighting System and Infiniti Voice Recognition, this is a vehicle that truly enhances driver control. Power now builds organically in shape of a wave rather than a concentrated burst. We call it Acceleration Swell, and it's 306 HP of ear-opening power. The all-new Infiniti G. Get ready for a sensory experience beyond machine. Infiniti.ca
