

CORRECTION NOTICE FOR TIDE COLDWATER COUPON

This newspaper carries a coupon for Tide Coldwater. The Coupon states that "if we washed in cold with Tide Coldwater for a year, we could save enough energy to light up to 3 million households for a year." This statement was based on data available at the time of going to press. Having reviewed the latest information with independent third party experts, we realize that this statement over-estimates the energy savings. The statement should read "save enough energy to light up to 2.5 million households for a year". We regret the fact that we were unable to correct the error before this paper was distributed.

At Procter & Gamble (manufacturers of Tide), we are committed to be truthful and accurate in statements we make about our products, and information we give to our consumers. Please accept our apologies for any confusion caused by this error. If you have any questions related to this matter, please contact Procter & Gamble on our Consumer Care line - 1.800.879.8433.

Dateline

Saturday Jan. 13
