STOP SMOKING IN ONE HOUR™ GUARANTEED

Shirley Tilden, Smoking Cessation Specialist runs the stop smoking practice, THE BUTT STOPS HERE, enabling smokers to stop smoking for life by attending a one-hour, personalized session, that comes with a lifetime guarantee.

Citing an Oxford University study* proving the Stop Smoking in One Hour™ system has over a 95% success rate, Shirley says, "There are many people and systems that claim you will quit smoking. The system in which I've been trained has the highest success rate in the world - it's effective, and without any withdrawal symptoms. With over 47,500 deaths in Canada per year from tobacco, and teenager smoking rates close to the national average at 25% (based on Statistics Canada 2001 data), there is clearly a need for this program".

"Many clients tell me they've tried every-thing from patches to gum to acupuncture to 'going cold turkey.' Most of my clients are skeptical at first - until they finish their session - and find themselves with absolutely no desire to smoke. Many of them smoked for years and never return to their habit. Local Doctors and Dentists refer their patients to me in an effort to extend and save lives."

"Aside from the health benefits associated with smoking cessation, ancillary benefits accrue to the non-smoker, like reduced life and auto insurance policy premiums."

Smoke Free International, the company holding intellectual property rights to the Stop Smoking in One Hour™ system, was founded in Great Britain, and has been offered in the United States since 2003, where over 100,000 clients have successfully quit smoking. Its corporate headquarters are located in southern California.
