- The Muskoka Wildlife Centre hosts Canada's largest live animal outreach program and it's education team has traveled across Ontario delivering enlightening and entertaining presentations and displays to thousands of organized groups and events, since 1989. Their display provides the public with a close encounter, featuring some of Ontario's magnificent wild creatures such as bobcats, owls, skunks, porcupines and more. It is designed to give show visitors a better appreciation for wildlife and to provide the public with a chance to pose questions to friendly and informative wildlife educators.
- The Muskoka Wildlife Centre is an interactive learning park situated on 100 acres of rustic Muskoka landscape, located only 20 minutes north of Orillia. This nearly new facility serves two purposes, the first is to provide the public with the opportunity to learn more about our provinces precious wild creatures and the second is to provide homes for animals that are not able to survive in the wild.
- The forest walking trails and indoor facility house over 30 species of wildlife including bear, cougar, eagles, wolves, lynx and various reptiles.
