Saturday April 14th
(9:30am - 5:00pm)

When Mark Ysseldyk bought his first Vitamin Store in February 2004, he never realized that it would become a family affair. But 3 years and 3 stores later, his brother Matthew and father Dick couldn't resist getting involved in a vital and growing enterprise, and joined the group when they bought Milton's Paradise Natural Foods, turning it into the 5th Vitamin Store. The sawdust has been flying ever since, as Matt puts his talents in construction and renovation to work making necessary changes to the facility. The store's original staff has chosen to put up with the pandemonium, and has stayed on to continue to offer helpful, knowledgeable service. So Kate, Vall, Dianna and Eric's friendly faces will continue to greet you when you visit the store.

Being part of a group of stores has many advantages: buying as a group allows The Vitamin Stores to offer competitive prices, quick response to customer requirements and access to more product lines. Staff at all five stores can take advantage of the cumulative knowledge of the other staff members; if we don't know the answer, we can easily find out for you. On-going staff training is available to make sure that all our employees know about the latest developments. We maintain close relationships with local

practitioners and other businesses. The Vitamin Stores are 100% Canadian and locally owned. The four other stores are located in Burlington (2), Dundas and Waterdown.

As a complement to our other services, we are very pleased to welcome Doctor of Naturopathic Medicine Lara Armstrong. Dr. Armstrong will be taking appointments on Mondays from 1-8 p.m.

The Milton Vitamin Store caters to the needs of people with a taste for healthier alternatives in their food choices with natural dairy and eggs from NutriSpring Farms, gluten-free products from Glutino and El Peto, and much more. We also carry natural body care and environmentally-friendly cleaning products.

The nutritional supplements are, for the most part, Canadian manufactured and conform to Canada's GMP (good manufacturing practice) standards and new safety regulations from Health Canada's Nutritional Products Advisory department. We carry such popular lines as Flora, Genuine Health (greens+), Lorna Vanderhaeghe, Natural Factors, Progressive; and homeopathics from Boiron and Heel.
