

Hockey coaches needed

With tryouts for the 2007-08 rep hockey season getting underway this weekend, Milton Minor Hockey Association (MMHA) is still looking to fill a number of head coaching positions.

Most of these are at the older divisions, with current vacancies for both the AA and additional entry midget teams, as well as the AE minor midgets and bantams.

Assuming they're resurrected from a one-year hiatus, the juveniles will also need a head coach, while a bench

boss has yet to be named for the AE atoms.

Those interested in applying for these posts can do so by visiting www.miltonwinterhawks.com, or calling the hockey office at (905) 878-8340.

MMHA will have its annual general meeting at MSC's banquet room May 28 at 7 p.m., when — among other things — elections will be held for next season. Newcomers are welcome to come and offer feedback or run for board positions.

BUSINESS PROFILE

35 year old man makes big money investing in real estate without touching a hammer

Thirty five year old Joe Mercadante stumbled across a Free Real Estate Investing Report that has helped him create enough monthly income in 12 months to quit his high paying corporate job.

According to Joe, "I started investing in properties using the strategy outlined in this free report in April of 2004. I have accumulated 20 homes that combined are paying me \$4,363 of cash flow each and every month. Plus I have locked in \$580,442 of profit. I plan on quitting my 9 to 5 job next month and will be able to live off of the income from my properties!"

Joe was amazed at the profits that could be obtained using this simple investing strategy. He said that he never wanted to invest in real estate because he didn't want to spend his evenings and weekends fixing up homes. Joe isn't very handy and he didn't enjoy installing toilets, laying tile and painting.

Luckily, Joe read a real estate investing report entitled, "How to Make \$112,284 Each & Every Year Investing in Real Estate without

Touching a Screwdriver" and learned a simple strategy for profiting from investing in nice homes in nice areas. Joe stated that the majority of homes he had invested in were in move in condition. In a few cases, his homes were so nice that he had rented his properties before he even got his keys at the closing.

Joe liked this approach because it didn't require him to have the financial risk of having to pay the mortgage, taxes and insurance costs for a property during a rehab project.

Joe said that this approach eliminated the majority of the risk and, best of all; he could invest in his spare time. The approach seems to be working because Joe will be retiring from his \$120,000 a year corporate job at the age of 35.
