Weed Man® TRUST THE PROFESSIONALS

Can't
Enjoy Your
Backyard
due to the
Crane Fly?

Adult Crane Flies resemble giant mosquitoes. The larvae are called Leatherjackets and they inflict serious damage on lawns by feeding on the grass roots and leaves. Damaged areas turn yellow and wilt. Infestations are particularly high in the Milton area.

Tough cleaning jobs made easier

(NC)—Try these helpful tips from Vim.ca to take the "grunt work" out of tough spring cleaning tasks.

Dirty Job: Cleaning floors without leaving them sticky.

Clean Solution: Wash with Vim Oxy-Gel diluted in water. Its active oxygen formula creates thousands of micro-bubbles that help loosen and lift dirt leaving them residue-free.

Dirty Job: Cleaning patio furniture.
Clean Solution: Squirt Vim Cream Cleanser directly onto surface or damp sponge. Rub gently. Let sit for a few minutes. Then hose down and wipe clean.

Dirty Job: Barbeque Grill Burnt-on Grease

Clean Solution: Use Vim Cream Cleanser with steel wool and rub over the grill to take off the rust and grease, then rinse clean. Follow barbeque manufacturer's instructions.

Dirty Job: Removing mould from the bathroom ceiling

Clean Solution: Squirt a little Vim Cream Cleanser on a damp cloth or—if the ceiling is too high to reach—on a sponge mop. Rub well, then rinse.

Dirty Job: Ridding grout of stains

Clean Solution: Make sure your cleanser is free of heavy dyes. New Vim Oxy-Gel All Purpose Cleaner with active oxygen is lightly coloured, so it will remove old stains without leaving new ones.
