An Official Plan is a general land use guide which is intended to provide Council with a basis for making decisions on development applications, changes in land use, and community improvements. It also sets out a long-term vision for growth and development in a municipality. The existing Official Plan was completed in 1997 and was intended to implement Destiny Milton, which was the Strategic Plan adopted by Council in 1994.

In 2005, the Town embarked upon a process of reviewing and updating its Strategic Plan. The previous Strategic Plan (Destiny Milton 1) was prepared in 1994 and it provided the basis for the preparation of the 1997 Official Plan. The Destiny Milton 2 (DM2) process was designed to both establish a series of overarching goals and objectives for the Corporation of the Town of Milton and to inform and provide the basis for service delivery in the Town. In addition, it was also the intent of the DM2 planning process to provide the basis for the preparation of a new and updated Official Plan. The final DM2 was adopted by Council on June 26, 2006.

NOW IS THE TIME TO GET INVOLVED

The Official Plan is a high level document governing land use planning in the Town of Milton. Anyone with an interest in the future planning of the Town should attend this meeting and get involved.

Go to Region's website, fill out survey, possibly win prize

Those who visit the Region's website this month can become eligible to win a prize simply by filling out an on-line survey.

The Region is conducting the survey to measure customer satisfaction with its website, www.halton.ca.

Respondents will be asked to complete a number of multiple choice questions, provide general comments and indicate their interest in participating in a focus group to be held later. All information collected from the survey responses will be kept confidential.

To show appreciation for the time taken to complete the survey, three names will be randomly selected to receive one of the following prizes: a stadium blanket, canvas briefcase and three-ring binder portfolio.

"Our website is not only an effective way of making information available about our policies and programs — it also has tremendous potential for soliciting citizens' involvement in the process of governance and decision making," said Regional Chair Gary Carr.

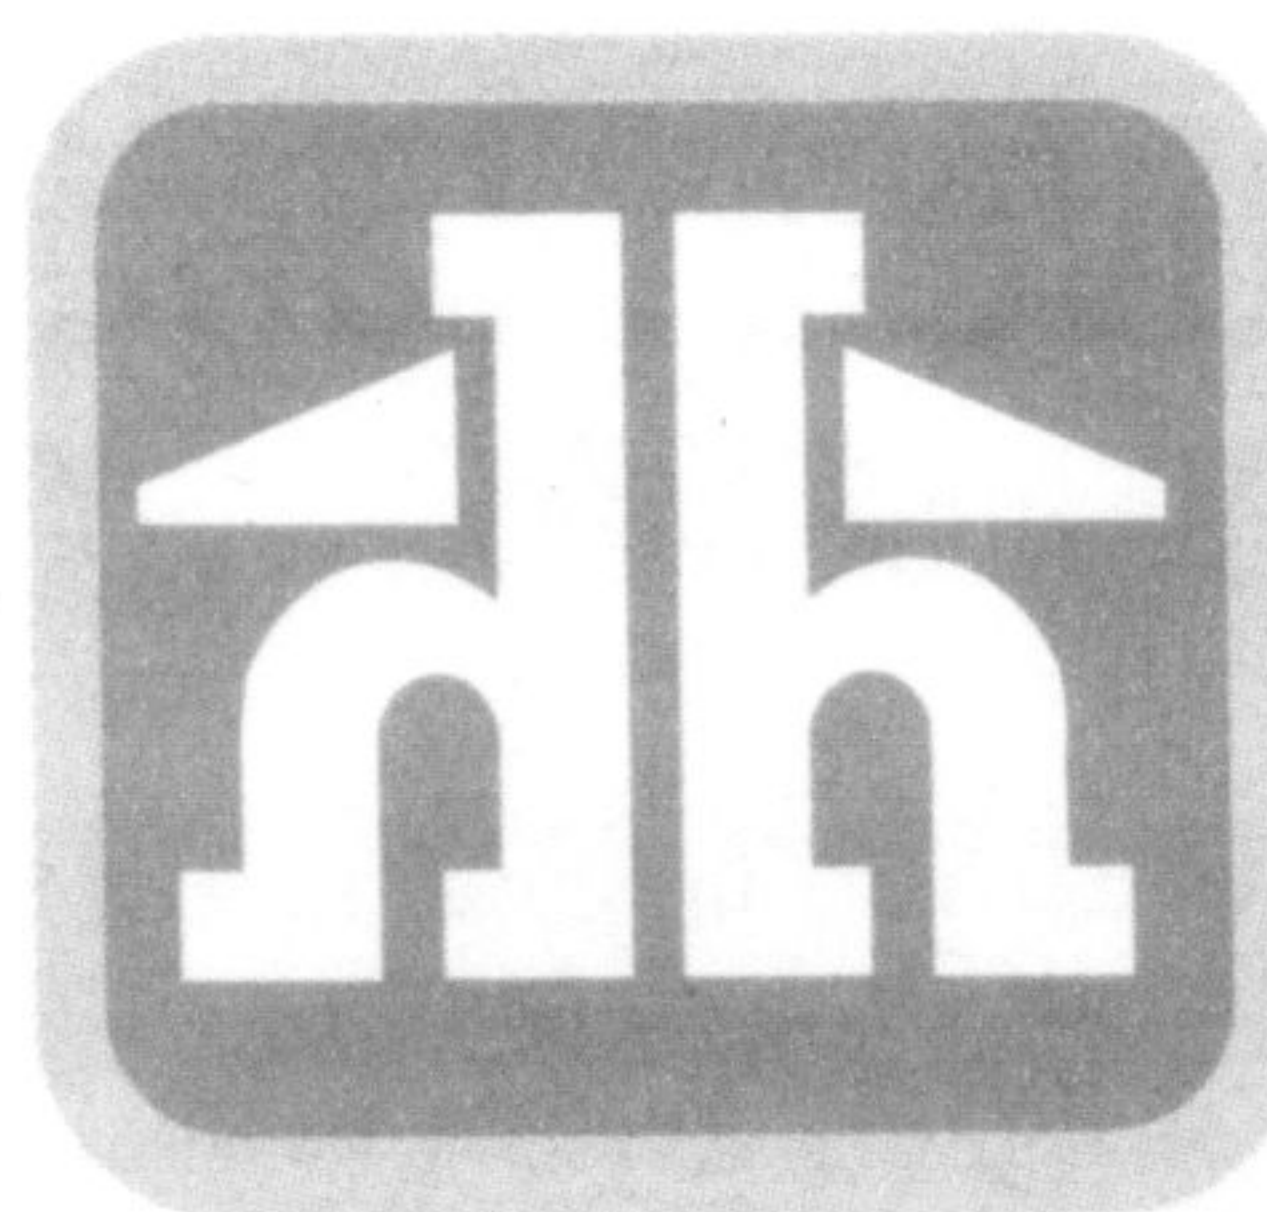

"The results of the survey

will help us ensure our website is an easy-to-use and effective communications tool."

In 2006, Halton Region's website received more than 1.7 million visits and over 11 million pages were viewed.

Participants can access the survey from a link on the aforementioned website's home page until the end of May.

The results will be used to identify areas for improvement to ensure the website is accurate, accessible and easy to use.
