State of the art bottling facility in Halton Hills is now hiring for the following positions.

Industrial Millwright Mechanics and Millwright Mechanics with 3rd class stationary engineer license. Preference will be given to individuals with bottling facility experience.

What makes a company a great place to work? It's a place that challenges and inspires you to achieve your best, a place that respects your individuality, values teamwork and collaboration, and rewards your efforts with career development opportunities and personal satisfaction. It's an organization where you can demonstrate your passion, express fresh ideas, and bring your unique background and experiences to the table. It's a place where employees are proud of the products they produce and the outstanding service they provide to customers.

- Position Description/Qualifications**
- Perform regular preventive maintenance on all equipment.
 - Troubleshooting/repairs/carryout work requests and apply corrective measures in a timely fashion.
 - Entrepreneurial attitude. Works well within a team atmosphere. Self-starter. Proactive approach. Willing to take challenges.
 - Excellent communication skills (oral and written).
 - Do reports on work completed.
 - Must have a full compliment of proper tools to perform tasks.
 - Must be a self starter and work under minimal supervision.
 - Perform other tasks as requested by the Maintenance Supervisor/Manager.
 - 3-5 years experience in an industrial manufacturing environment as a Millwright.
 - Knowledge of electric circuitry of relay, PC and PLC logic.
 - Must be able to work the 24/7 shift schedule.
 - Machine shop familiarity (lathe & milling machines), welding (ARC, TIG, MIG), and electrical pneumatic & hydraulic fields are an asset.
 - Past experience in a food manufacturing facility is a definite asset with blow mould experience.
- Company provides above average pay for the right candidates. No phone calls will be accepted.
All interested applicants must email their resume to: garrycormier@fernbrooksprings.com

G D Control Inc. where, "We Solve Manufacturing Challenges"

At G D Control we are committed to providing ALL of our customers with innovation, automation and satisfaction. We strongly believe all manufacturing facilities; large and small should have the privilege to quality automation which in turn will assist our customers in achieving their manufacturing goals.

We are seeking an experienced **CONTROLS SYSTEM SOLUTION PROVIDER** for a full time Hourly position. They will be responsible for day to day challenges of supporting the Automation controls activities within our customer's locations, which include high speed, high tech manufacturing facilities.

Candidates should have a general understanding of how mechanical and electrical systems, including PLC, HMI and Servo's work, with experience in providing support to the engineering teams and provide technical assistance on production equipment. You will be involved in projects that will include the design, implementation and management of process improvements for new launch programs and existing systems.
