

Telus volunteers spruce up Darling children's hospice

Volunteers lent a hand recently to help spruce up a local home for chronically ill children.

Dozens of Telus team members helped to clean and restore the Darling Home for Kids, on No. 15 Sideroad in Milton,

which offers a respite for sick children and their families.

Together, the volunteers dedicated their day to facility maintenance, gardening and spending time with the children.

The project was part of the second annual Telus Day of

Service, a day for employees and friends to give where they live.

More than 6,000 team members participated in hundreds of volunteer projects across the country focused on the environment, youth and those less fortunate.

She works twice as fast as everyone else...

So does her natural gas water heater.

A smart home uses natural gas – not electricity – to heat water. Why is natural gas the smart choice? That's easy. A natural gas water heater.

- Is fast. Natural gas delivers twice as much hot water in the same time as an electric water heater
- Saves over 40%* on your water heating energy bill which adds up to over \$2,400 over your water heater's lifetime
- Reduces the load on Ontario's electric grid

Visit uniongas.com/waterheaters and we'll get you started on saving money, using less energy and enjoying tubs of comforting hot water because a natural gas water heater is...

Twice as Fast. Half the Cost.
