Packing Made Easy

Moving is synonymous with stress. Keep it sane! Pack one room at a time. Label each box, listing its contents and location (kitchen, bedroom, etc.). Don't overpack boxes -- you don't want them to be too heavy to carry. Pack heavy items in small boxes.

Use this checklist to make sure you pack your belongings properly.

HOUSEHOLD ITEMS

- clothing: hang clothes from closets in wardrobe boxes; fill empty space with lightweight items like lamp shades covered in bubble wrap; use clothing as packing material in other boxes for bedroom; pack some clothing from bureaus

in boxes or suitcases so the bureaus won't be too heavy.

- books: use small boxes or specially made book boxes; pack flat, alternating bindings with packing paper or bubble wrap.
- dishes: individually wrap each in packing paper or bubble wrap; cups and bowls can be placed inside each other and then wrapped (you can first wrap in a plastic bag so you don't have to wash later).
- kitchenware: stack pots, pans, etc. in a box with packing paper between them, don't make the box too heavy.
- glasses: wrap each separately in

packing paper or bubble wrap (you can first wrap in a plastic bag so you don't have to wash later).

- small appliances: pack in the original container or a box cushioned with packing paper (do not use shredded paper as that can clog the appliance).
- washing machine: stuff towels between machine sides; pad exterior well; disconnect hoses and put in plastic bag.
- freezers and refrigerators: empty contents, defrost and dry interiors well one to two days before moving; remove all pans, trays, crispers and shelves and wrap individually
