HAPP EASTER!

Invest in your child

Invest in our future

When you play games and draw with your child, you are not just having fun with your child, you are investing in the future — theirs and ours. Children who start kindergarten with early writing skills are kids who are putting their best foot forward. And research shows that success at school leads to success and happiness throughout life.

For fresh ideas on developing early writing skills, visit www.ourkidsnetwork.ca/uey or call 905-876-1306

We can help you make a lasting investment in your child's future.

TIC TAC TOE

WORLD FACT:

Why does the date of Easter move?

Easter Day in 2008 falls on Sunday, March 23rd. It is the earliest it will be until at least 2030!

Easter is called a moveable feast because the date of Easter changes every year. Easter Sunday can fall on any date from March 22 to April 25.

The reason for this variation in the date of Easter is based on the lunar (moon) calendar rather than our more well-known solar (sun) one.

Easter always falls on the first Sunday following the full Moon (the Paschal Full Moon) either on or after the Spring Equinox (March 20 or 21). If the Full Moon falls on a Sunday then Easter is the next Sunday.
