Preparing your lawn for spring

(NC) With the warm weather approaching it is the perfect time to get your lawn ready for the spring season. The lawn and garden team at Canadian Tire have the following tips to help ensure your lawn gets a healthy start this season.

To ensure even thawing and prevent diseases like snow mould, remove snow piles from your lawn or spread the snow evenly across the lawn.

Clean unwanted debris that may have accumulated over the winter months.

Aerate and weed your lawn to improve water, air and fertilizer uptake. Choose a manual weeder like the Fiskars telescopic stand up weeder that removes the entire root of invasive weeds, eliminating the need for herbicide use.

Healthy, thick lawns naturally deter weeds and other pests. Choose a natural fertilizer, like Scott's eco sense fertilizer, that is ideal for planting new lawns or repairing bare starts to give your lawn a healthy start.

In preparation for the spring gardening season, check your equipment to ensure it is in good working condition. Don't forget to sharpen

the blades on lawn mowers and weeders.

Purchase a composter and get started on turning household waste into organic fertilizer for your lawn and garden.

Buying Bulk Bags Direct From the Farm

TIP: Get your bag early

By buying your GreenThumb™ Black Garden soil early you'll be able to take advantage of the good weather as it comes.

The Giant Bag Stores conveniently on a corner of your driveway, keeping your garden soil or mulch dry and ready to go. No hurry to use it up. It is ready when you are.
