The gardener's top 10 essential gardening tools checklist

(NC) With so many gardening tools to choose from, it is easy to get overwhelmed when considering the essentials. This Spring, whether you're starting out or consider yourself an experienced gardener, The Home Depot Canada offers a list of essential tools to help you enjoy time spent beautifying your yard.

Pruner. Pruners come in a variety of shapes and sizes. A strong multi-purpose pruner comes with an inclined cutting head, is easy to use and gentle on the wrist.

Lopper. This long-handled cutting tool is great for trimming rose bushes or cutting thick, hard to reach branches.

Shovel. A long-handed spade shovel with a pointed blade is ideal for moving soil, digging holes and planting.

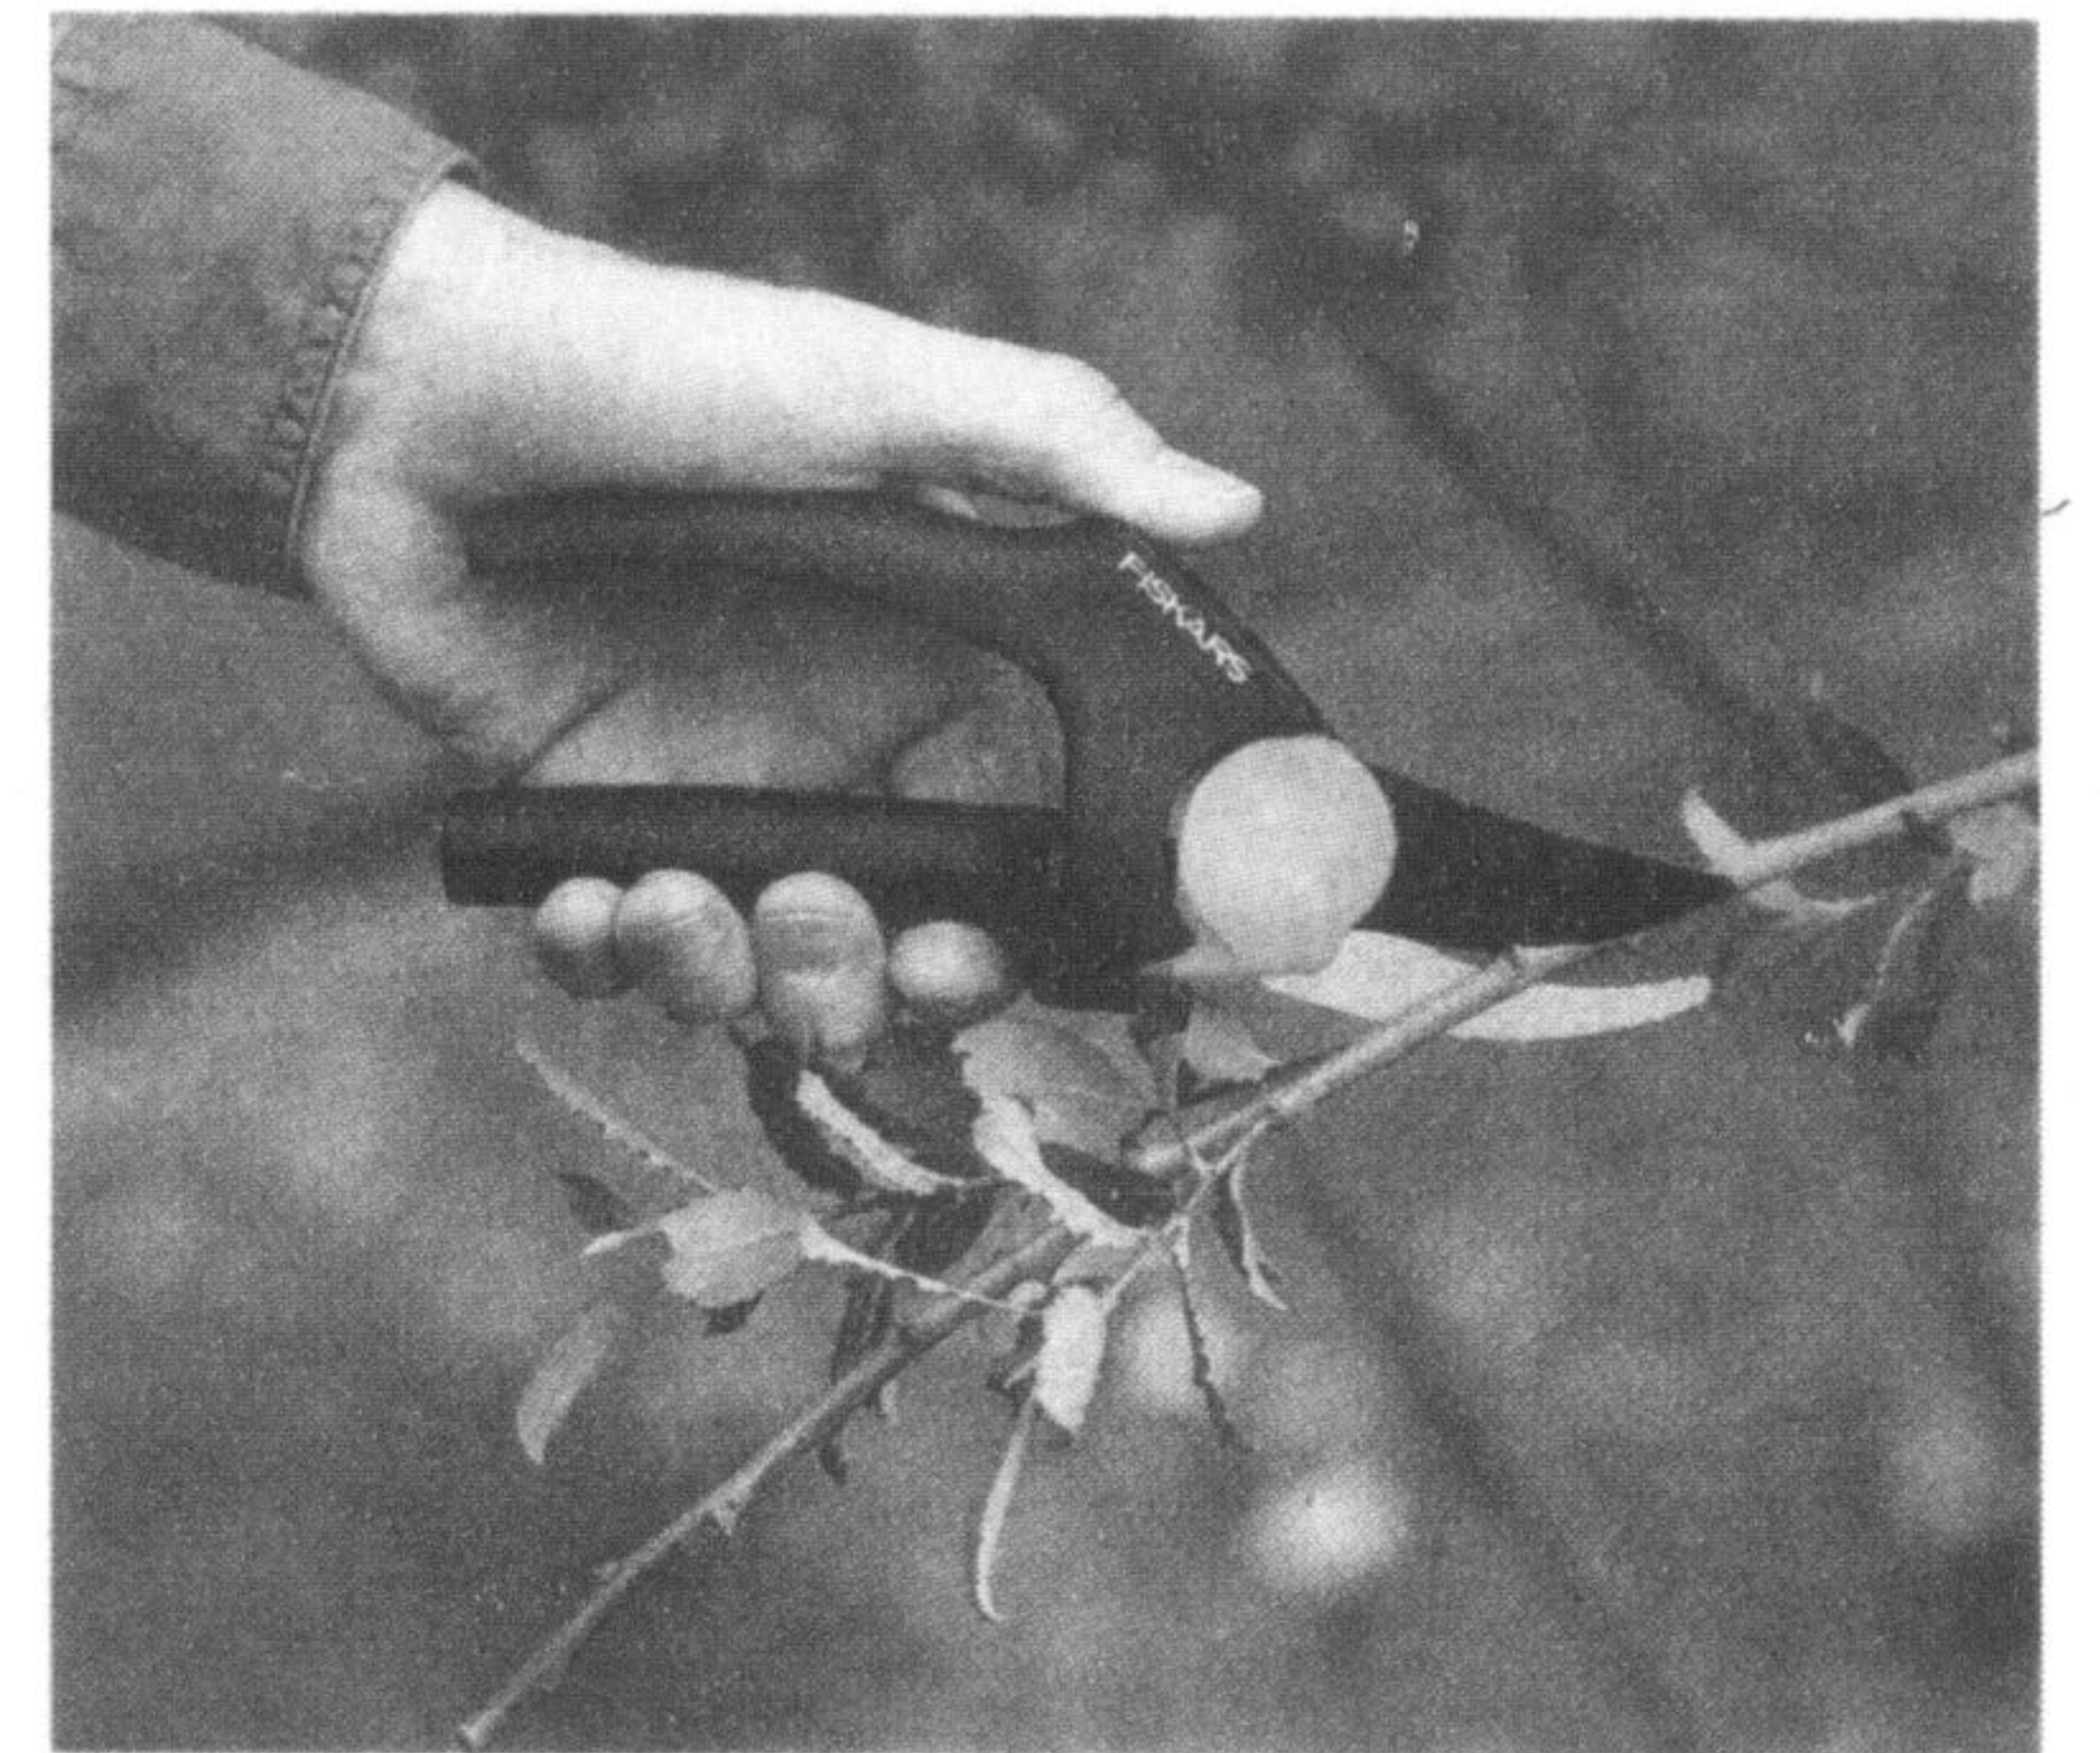

Cultivator. This hooked tool comes with three to five prongs and is ideal for loosening, mixing and aerating soil.

Broom. Sweep away grass and debris from your sidewalk, patio and driveway with a long-handled push broom that is at least 18 inches wide.

Wheelbarrow. It is reliable for transporting supplies, dirt and other rubble. Ensure a wheelbarrow's size is one that you can handle easily when fully loaded.

Hose. Rejuvenate your garden regularly with a durable hose, reinforced with a mesh layer. For spacious yards, consider a watering wand which covers a large surface area.

Spreader. A spreader helps distribute fertilizer

evenly, preventing over or under fertilized lawns sometimes caused by manual distribution.

Gloves. Protect your hands from dirt, critters and thorny plants with a pair of cotton gardening gloves. If you're working in muddy territory or spraying pesticides, choose gloves with greater protection.

Storage System. Keep your tools organized with a storage system in your shed, garage or home. Single and double prong brackets are easy to mount and designed to accommodate a variety of tools, in all shapes and sizes.
